

2008-2009 Annual Assessment of University Learning Outcomes

School of Dentistry Assessment Report – Changes to Student learning

1. Disciplinary Competence and/or Professional Proficiency

Changes to Student Learning:

None

2. Critical Thinking Skills

Changes to Student Learning:

We are evaluating whether our students demonstrate the ability to think critically but how our curriculum specifically advances this process. We are exploring the development of OSCE.

3. Ignatian Values, to include but not limited to a commitment to an exploration of faith and the promotion of justice

Changes to Student Learning:

We created a clinical rotation course that allows students to treat patients at the One World clinic.

4. The ability to communicate clearly and effectively

Changes to Student Learning:

We are evaluating whether our students demonstrate the ability to communicate effectively but how our curriculum specifically advances this process. We are exploring the development of OSCE.

5. Deliberative reflection for personal and professional formation

Changes to Student Learning:

Investigate the possibility of awarding stipends to students who engage in additional research.

6. The ability to work effectively across race, ethnicity, culture, gender, religion, and sexual orientation

Changes to Student Learning:

None
