Things We Will Do
Make grass, butterflies and complete rain sticks

We are doing the final finishing touches on our rainforest. Some children will help clip grass for the forest floor. Others may choose to make coffee filter butterflies for the emergent layer of the rainforest. Several will complete their rain sticks.

We will also get to know all of our friends who have recently joined our class. The groups will have sand play on Tuesday and Wednesday. In the literacy room we will read Chicka, Chicka Boom Boom and do some related activities.
