Cost of Plan Services
There are three categories of services provided to your plan:

1. General Administrative Services
General administrative services include recordkeeping, legal, accounting, consulting, investment advisory and other plan administration services. Some of the expenses for general administrative services are fixed and other expenses such as legal or accounting may vary from year to year. These costs are allocated to each participant in a uniform way.

Other than your specific investment services fees, your plan has no additional administrative expenses paid to TIAA-CREF.

2. Specific Investment Services
Each investment offered within the plan charges a fee for managing the investment and for associated services. This is referred to as the expense ratio and is paid by all participants in that investment in proportion to the amount of their investment. The specific expense ratio for each plan designated investment option is listed in the Investment Options Comparative Chart.

3. Personalized Services
Personalized services provide access to a number of plan features and investments that you pay for, only if you use them. The personalized services used most often are:

A prospectus for each TIAA-CREF investment offered within the plan is available online at tiaa-cref.org/planinvestmentoptions, enter your plan ID, 101043, and you'll be directed to plan and investment information.

Variable return investments (mutual funds and/or variable annuities) are offered through your plan sponsor's retirement plan. Funds are offered at that day's net asset value (NAV), and the performance is displayed accordingly. Performance at NAV does not reflect sales charges, which are waived through your retirement plan. If included, the sales charges would have reduced the performance as quoted.

There are inherent risks in investing in variable return investments including loss of principal.

Please read the prospectus and carefully consider the investment objectives, risks, charges and expenses before investing.
