

CUBuyplus® User Enhancements coming Monday, June 9th.

Task bar and Marketplace enhancements will be appear this Monday. Please contact the Business Service Center, x2920 with any questions.

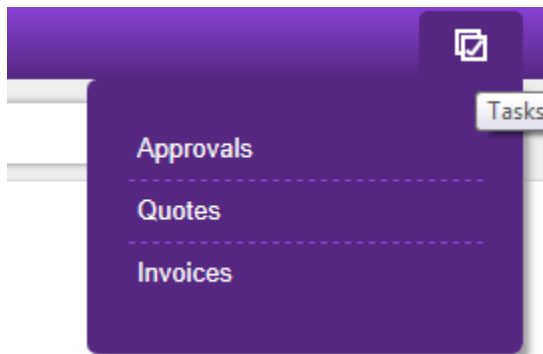

Task Bar

Several menu changes are being made to streamline the tool bar and free up space for future enhancements to be added.

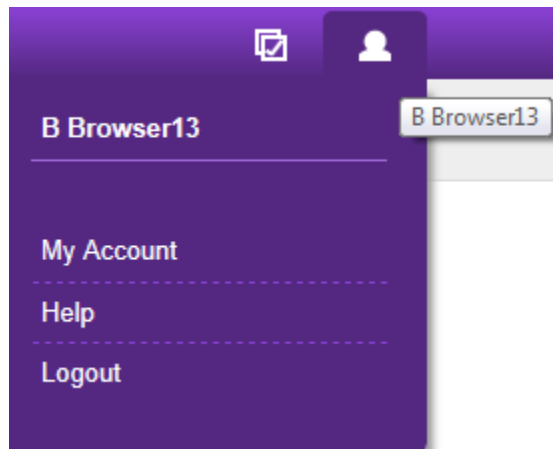

The task bar will now appear at the top of the screen, above the CUBuyplus logo.

Tasks will now appear as a double box with a checkmark. Access the drop down menu by moving your cursor over the box, just as it does today.

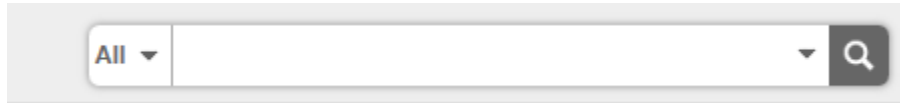

A person icon will now appear which combines the below items in a single location.

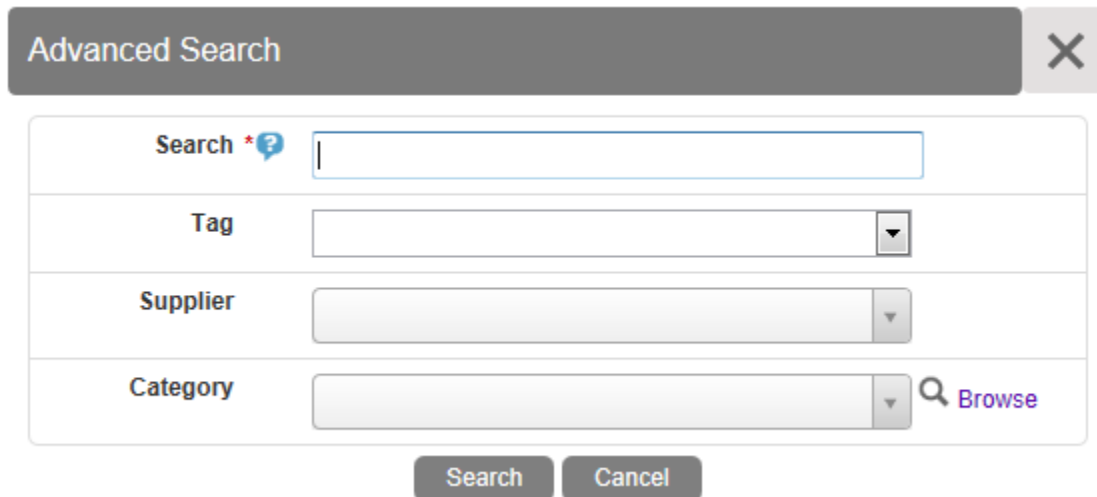

Marketplace

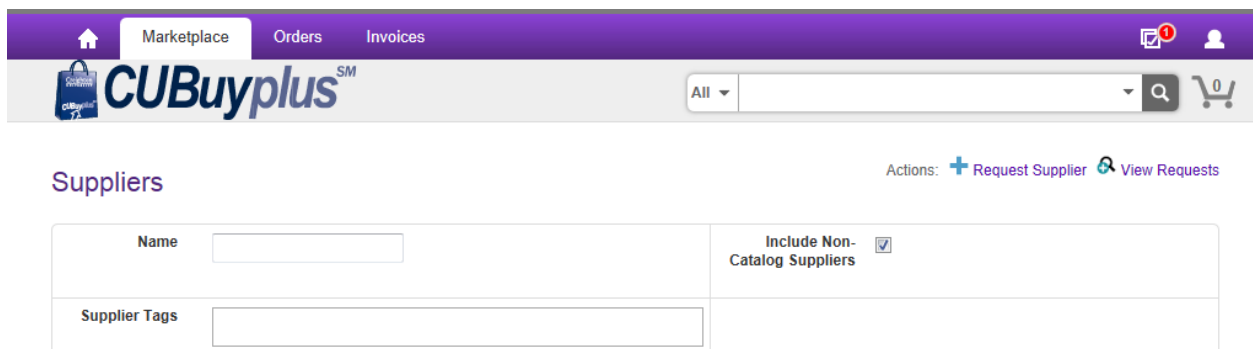

The search field for searching the entire site for a product or service has a new look.

A search bar with a dropdown menu on the left showing 'All' with a downward arrow. To the right is a text input field, and on the far right is a magnifying glass icon.

The drop down on the right will bring up the below menu. Supplier Categories are now called Tag. Remember that Category is referring to the UNSPCS (United Nations Standard Products and Services Code®) product category.

An 'Advanced Search' modal window. It has a title bar with 'Advanced Search' and a close button (X). Inside, there are four rows of filters: 'Search' with a text input and a help icon; 'Tag' with a dropdown menu; 'Supplier' with a dropdown menu; and 'Category' with a dropdown menu and a 'Browse' link with a magnifying glass icon. At the bottom are 'Search' and 'Cancel' buttons.

Supplier Tags was formerly called Category. A Category here referred to groupings of suppliers that were setup for a department to be able to further refine their search. Supplier Tags will continue to have the department groupings and has been expanded to include items such as sustainability and women owned.

A screenshot of the 'Suppliers' page in the Marketplace. The top navigation bar is purple with links for 'Marketplace', 'Orders', and 'Invoices'. The CUBuyplus logo is on the left. On the right, there are icons for a shopping cart (0 items) and a user profile. Below the navigation bar, the page title 'Suppliers' is on the left, and 'Actions: + Request Supplier & View Requests' is on the right. The main content area has a form with two rows: the first row has a 'Name' label and a text input, and the second row has a 'Supplier Tags' label and a text input. To the right of these inputs is a checkbox labeled 'Include Non-Catalog Suppliers' which is checked.

Additional information will now appear when looking at suppliers.

-  Folder indicates that the supplier has a hosted catalog, which means that the catalog is stored in the tool.
-  The double arrow means that the supplier has the ability to receive the order electronically rather than automated email or snail mail.
-  The circling arrow means the supplier has a punchout catalog, which means that CUBuyplus will go out to the supplier's site for shopping and then brings the purchases back into the users shopping cart.

Alamar Uniforms 
Medical, industrial, food service uniforms and related services

This supplier has hosted catalogs.
