

## EDU 208 Understanding and Serving Diverse Populations in Education

### Multicultural Lesson Plan

The multicultural lesson should define the knowledge and skills that students are expected to learn at their particular grade level. Whose story, whose culture, and whose values should not only be reflected in the curriculum and supporting textbooks and readings, but also in the teachers' daily lessons.

Multicultural lessons support and celebrate our diversity in the broadest sense. Lessons included the histories, experiences, traditions, and cultures of students in your classroom. In classrooms with limited diversity, lesson plans introduce students to the major cultural groups in the state or nation.

## MULTICULTURAL EDUCATION

### Lesson Plans with a Multicultural Focus

This compilation of lesson plans available to teachers (K-12) targets multicultural education; however, one will also discover lesson plans for other subjects. Consult [Lesson Plans](#) for additional general sites.
