- VI. **Committee Time (15 minutes)**
- a. End of the Year Summaries
 - i. Marketing (Emily)-getting new chair and marketing chair up to speed. Ordering shirts and posting information soon.
 - ii. Sustainability (natalie) writing legislation. For next counsel, want to better recycling and get involved with Welcome Week.
 - iii. Campus Planning-(Brad)-Parking is horrendous, trying to determine how we would fund a parking structure. Let us know if you have ideas. City won't fund lights under troublesome bridge. Walking escorts might be an option.
 - iv. Diversity-Tagalaoa-Bylaw change presenting next week. Committee new for next year, program board partnership
 - v. Quinlin-Sending out emails next semester for framework for best places to park on campus
 - vi. Brad-In order to get the university to see how much we care, what are the thoughts that we get our tuition voted on by the student body for a 50-100\$ increase so that we could fund a parking structure. This was successful at Marquette. Our student body can show the University that we care.
 1. Wilson-The funding might be a good idea, we talked about a new parking structure earlier with the presidential committee.
 2. Emily-I believe there is a lot of land available. Don't accept that we don't have land
 3. Wilson-We wonder why they don't want to build this structure. They keep saying we don't have space.
 4. Neppl-Public safety claims there are enough space, but nobody wants to walk a mile. We have argued we don't want to walk that far. It's a matter of coming to terms. We need to get them to understand. It's a lot of money, but we need to get it on the radar that it's something we want.
