THEODORE J. URBAN, Ph.D., (1926-1990) came to Creighton in 1954. He was a faculty member, Chair of Oral Biology, and Associate Dean in the School of Dentistry. He received the University’s Distinguished Service Award in 1984, and was honored four times as Outstanding Teacher of the Year.

Dr. Urban was a tireless advocate for and mentor to his students. He never failed to offer a guiding hand or a needed admonishment for the personal welfare and professional development of all his students. He quietly accomplished whatever needed to be done, always with a smile and sense of humor.

Dr. Urban’s presence in our dental school is truly missed. However, with this endowment, his memory and legacy will be permanently preserved through an annual lecture that is part of the continuing education program at the School of Dentistry.

The Dr. T.J. Urban Memorial Lecture Series was founded by the generous support of one of Dr. Urban’s former students.

Creating More Predictable Restorations
A Crown Lengthening Workshop

FEBRUARY 8, 2013

James Kohner, DDS
8:30 am-4:00 pm
Faced with a cusp fractured below the gingiva?
Prepping too far under the gingiva and not getting predictable impressions? Planning esthetic restorations in the anterior and facing uneven tissue, or a “Gummy Smile?”

This 1 day workshop WILL show Evidence Based solutions for these issues; plus give you the peace of mind that you are current in your treatment planning choices. It will be suitable for clinicians with or without surgical experience.

You will enjoy an in-depth look at the concepts and practical applications for Clinical Crown Lengthening and learn how to enhance predictability for your restorations and impressions. You will practice these procedures on previously frozen pig jaws and anatomically correct models.

Techniques are discussed for both Functional and Esthetic Crown Lengthening. Participants will see the benefits of these procedures and how they create happy patients. Happy patients in turn lead to more referrals.

A workbook detailing the procedures is included.

LEARNING OBJECTIVES:
• Make predictable impressions every time
• Learn why crowns come loose and how to prevent it
• Save chair time
• Understand causes of red gum tissue around margins
• Diagnose esthetic crown lengthening
• Understand the Gummy Smile
• Coordinate surgery with restorative procedures

James Kohner has 35 years of private practice experience with more than 20 years experience teaching and lecturing nationally.

This course will be presented at the Creighton University School of Dentistry. Final registration will begin at 8:00 a.m. with the course beginning at 8:30 a.m. The course will conclude at 4:00 pm. Tuition includes class materials, continental breakfast, lunch and other amenities.

All registrations received at least 1 week prior to the course will be acknowledged. A full refund will be given if the cancellation is received more than three days prior to the course.

Creighton is an approved CE provider by the states of Iowa, Kansas, Minnesota and South Dakota. This course meets the requirements for credit in Nebraska. Creighton is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, not does it imply acceptance of credit hours by boards of dentistry. Creighton University School of Dentistry designates this activity for 7 continuing education credits.

Course Tuition: 
Dentists 
prior to Jan. 15 $193 
After Jan. 15 $203 
Credit Hours 7
