OPTION #2

Dates by arrangement
with EMS Education Program Director
Course Description:

The class meets monthly on schedule Wednesday evenings for traditional sessions at Creighton University EMS Education. Additional distance education instruction is provided online in which students respond to problems-based cases and workshop assignments.

Course Objectives: Upon completion of this course, participants will be able to:

1. describe the principles of andragogy and pedagogy and appropriate apply the principles of each in the classroom setting;
2. describe the attributes of an effective educator;
3. describe the ethical guidelines and principles of EMS education;
4. engage classes with creative learning activities and methods;
5. describe the roles and responsibilities of a primary and a secondary EMS instructor;
6. describe various learning styles and how to appropriately instruct students with different learning styles;
7. establish a positive and respectful learning environment;
8. manage challenging classroom situations and difficult students;
9. teach at all levels in all of the domains, including the cognitive, psychomotor and affective domains;
10. effectively develop and apply course goals and objectives;
11. develop effective lesson plans;
12. develop and present effective lectures and practical workshops;
13. describe national and state laws and regulations that govern EMS education;
14. effectively utilize audiovisual aides;
15. effectively utilize educational resources to enhance student learning;
16. effectively develop and guide group learning activities;
17. effectively utilize distance learning modalities;
18. develop and monitor field and clinical learning activities;
19. develop and analyze effective assessment and evaluation instruments;
20. develop an effective administrative education budget and policy statement; and,
21. describe the value and process of accreditation.
