

Atmospheric Sciences (ATS)

Program Goals

At the completion of their graduate program, the student will:

1. Demonstrate an appreciation for and understanding of the principles of physical and dynamic meteorology.
2. Demonstrate the ability to apply these principles to the solution of an original problem related to the earth's atmosphere, the earth's oceans, or the atmosphere of other planets.
3. Effectively communicate these research findings orally and in writing through an appropriate venue such as professional conference or peer review journal.
