Biomedical Sciences (BMS)
Program Goals
   At the completion of their graduate program, the student will:

   1. Demonstrate an appreciation for the use of specialized knowledge in a field of study in service to others.
   2. Identify and suggest possible solutions to ethical dilemmas that occur in their work and in their field of study.
   3. Analyze, interpret, and critique advanced knowledge in structural and functional biology;
   4. Effectively communicate research findings at scholarly fora and in the literature alike, both orally and in writing.
