

Clinical Anatomy (CAN)

Program Goals:

Within the context of Creighton as a Jesuit, Catholic University, the Master's in Clinical Anatomy Program offers students the opportunity to correlate didactic and dissection experience with applied clinical anatomy. In addition to anatomical lectures and laboratories, students will participate in clinical sessions within the departments of Surgery, Pathology, and Radiology. This program encourages students to pursue personal accountability, professional proficiency and commitment to community. At the completion of this Program, the graduate will:

1. Have the necessary skills and experience to teach clinically relevant anatomy in any of the Health Sciences.
2. Demonstrate critical thinking and the ability to correlate human gross anatomy and neuroanatomy, pathology, surgery, radiology, and embryology as related to clinical practice.
3. Demonstrate ethical decision making, humanitarianism, and civic responsibility.
