ADMINISTRATION AND SUPERVISION

The University reserves the right to make changes at any time in the requirements for admission, in the curriculum of the School, or in any regulations governing the School. The University reserves the right to refuse further registration to any student believed to be incompetent in scholarship or otherwise unfit to be awarded the degree of Doctor of Medicine. Such judgement to deny further registration to a student is the responsibility of the Dean who acts on the advice of the faculty of the School of Medicine.

POLICY ON ACADEMIC HONESTY

In keeping with its mission, Creighton University seeks to prepare its students to be knowledgeable, forthright, and honest. It expects and requires academic honesty from all members of the university community. Academic honesty includes adherence to guidelines established by the university, its colleges and schools and their faculties, its libraries, and the computer center.

Academic or academic-related misconduct includes, but is not limited to, unauthorized collaboration or use of external information during examinations; plagiarizing or representing another's ideas as one's own; furnishing false academic information to the university; falsely obtaining, distributing, using or receiving test materials; developing or using study guides for course examinations or National Board of Medical Examiners’ examinations that are known to be based on memorized examination questions; altering or falsifying academic records; falsifying clinical reports or otherwise endangering the well-being of patients involved in the teaching process; misusing academic resources; defacing or tampering with library materials; obtaining or gaining unauthorized access to examinations or academic research material; soliciting or offering unauthorized academic information or materials; improperly altering or inducing another to improperly alter any academic record; or engaging in any conduct that is intended or reasonably likely to confer upon one's self or another an unfair advantage or unfair benefit respecting an academic matter. Students alleged to have engaged in the above behaviors will be subject to reporting to the Associate dean for Student Affairs and will be subject to the policies and procedures designated for allegations of unprofessional behavior.

Further information regarding academic or academic-related misconduct, and disciplinary procedures and sanctions regarding such misconduct, may be obtained by consulting the current edition of the Creighton University Student Handbook and the School of Medicine Student Handbook. Students are advised that expulsion from the University is one of the sanctions that may be imposed for academic or academic-related misconduct.

The University reserves the right to modify, deviate from, or make exceptions to the School of Medicine Student Handbook at any time, and to apply any such modification, or make any such deviation or exception applicable to any student without regard to date of admission application or enrollment.

REQUIREMENTS FOR THE DEGREE OF DOCTOR OF MEDICINE

In order to receive the degree of Doctor of Medicine (M.D.), students must satisfactorily pass all course, clerkship, and elective requirements of the School of Medicine. Students shall have demonstrated the knowledge, skills, maturity, and integrity and be judged by the faculty as ready to undertake the responsibilities of a physician. The degree is conferred upon students who have satisfactorily completed not less than four years of study in the basic and clinical sciences. Each student must pass Step 1 of the United States Medical Licensing Examination, take Step 2 Clinical Knowledge and Step 2 Clinical Skills of the United States Medical Licensing Examination and post a score on each, pass Advanced Cardiac Life Support, and pass the Junior Clinical Competency Examination.
UNIT OF INSTRUCTION
The School of Medicine defines the credit unit of instruction as the semester hour. One semester hour is equivalent to one fifty-minute period of recitation or lecture per week for one semester. Two or three fifty-minute periods of laboratory are equal to one period of recitation or lecture.

FULL-TIME STUDENTS
All students must be enrolled full time unless the Associate Dean for Student Affairs has approved other arrangements. Registration for each session must be completed on the days designated by the Associate Dean for Student Affairs. Students who take 12 or more semester hours of credit during a semester are considered full-time students.

TECHNICAL STANDARDS
Creighton University is committed to admitting “qualified students…without regard to race, color, age, national or ethnic origin, disability, sex, marital status, or religion.” A qualified applicant is a person who demonstrates superior intelligence and other skills to complete a very rigorous curriculum and to meet certain technical standards for physicians and medical students. The M.D. degree attests to the mastery of general knowledge in all fields requisite for the practice of medicine. The awarding of the M.D. degree signifies that the holder is a person who is prepared for the practice of medicine through entry into postgraduate training programs. Thus, the graduate of Creighton University School of Medicine must possess the knowledge and skills to function in a wide variety of clinical settings and to render a wide spectrum of patient care.

In order to acquire the necessary knowledge and skills, medical students must possess certain sensory and motor functions to permit them to carry out activities described below. Medical students must be able to integrate all information received by whatever sensory function is employed, and to do so consistently, rapidly, and accurately. Furthermore, medical students must be able to learn, integrate, analyze, and synthesize data.

Medical students must demonstrate the ability to tolerate physically challenging workloads and to function effectively under stress. Attending to the needs of patients is at the heart of becoming a physician. Academic and clinical responsibilities of medical students may require their presence during daytime and nighttime hours, any day of the year.

Candidates for the M.D. degree must have a variety of abilities and skills including: observation, communication, motor, intellectual-conceptual, integrative, and quantitative abilities, and attitudinal, behavioral, interpersonal, and emotional skills.

Technological accommodation is available to assist in certain cases of disability and may be permitted in certain areas. However, under all circumstances, a candidate for the M.D. degree should be able to perform in a reasonably independent manner. For example, the use of a third party means that a candidate’s judgment must be mediated by another person’s (the third party) powers of selection and observation. Therefore the use of a third party to assist a candidate or student in meeting the technical standards for admission or graduation is not permitted.

A. Observation
Candidates and students must have sufficient vision to be able to observe demonstrations, experiments, and laboratory exercises in the basic sciences. They must be able to observe a patient accurately at a distance and close at hand. Medical students must be capable of viewing and interpreting diagnostic modalities and to detect and interpret non-verbal communication from the patient.
B. Communication
Candidates and students must be able to communicate verbally with patients and colleagues. They should be able to hear the history of a patient and respond to the patient verbally. Candidates and students must be able to read and write in standard format and must be able to interact with computers in rendering patient care. Candidates and students must be proficient in English in order to be able to prepare a legible patient workup and present the workup orally in a focused manner to other health care professionals. Candidates and students must be able to communicate effectively with patients and family members and elicit a clinical history.

C. Motor
Candidates and students must have sufficient motor function so that they are able to execute movements reasonably required to take a history and to perform a physical examination, including the ability to inspect various physical signs and recognize normal versus abnormal findings. They must be able to elicit information from patients using the techniques of palpation, auscultation, percussion, and other diagnostic maneuvers. They must be able to execute motor movements reasonably required to provide general care and emergency treatment to patients in accordance with currently acceptable medical practice. Candidates and students must be able to utilize gross and fine manual palpation, touch, vibratory sensation, and temperature sensation in describing and evaluating various body parts.

D. Intellectual-Conceptual, Integrative and Quantitative Abilities
Candidates and students must possess a range of skills that allows mastery of the complex body of knowledge that comprises a medical education. Candidates and students must be able to recall large amounts of information, perform scientific measurements and calculations, and understand and cognitively manipulate three-dimensional models. Candidates and students must be able to learn effectively through a variety of modalities including but not limited to: classroom instruction, small group discussion, individual study of materials, preparation and presentation of written and oral reports, and use of computer-based technology. Candidates and students must exhibit reasoning abilities sufficient to analyze and synthesize information from a wide variety of sources. The ultimate goal of the student will be to render patient care by solving difficult problems and making diagnostic and therapeutic decisions in a timely fashion.

E. Attitudinal, Behavioral, Interpersonal, and Emotional Attributes
Because the medical profession is governed by generally accepted ethical principles and by state and federal laws, candidates and students must have the capacity to learn and understand these values and laws and to perform within their guidelines. Medical students must be able to relate to patients as well as staff and colleagues with honesty, integrity, non-discrimination, self-sacrifice, and dedication. Medical students must be able to develop mature, sensitive, and effective relationships with patients. Medical students must be able to identify personal reactions and responses, recognize multiple points of view, and integrate these appropriately into clinical decision-making. Medical students must be able to communicate and care for, in a non-judgmental way, persons whose culture, sexual orientation, or spiritual beliefs are different from their own. Candidates and students must be able to examine the entire patient, male or female, regardless of the social, cultural, or religious beliefs of the candidate or student.

Candidates and students must be of sufficient emotional and mental health to utilize fully their intellectual abilities, to exercise good judgment, to complete patient care responsibilities promptly, and to relate to patients, families, and colleagues with courtesy, compassion, maturity, and respect. Candidates and students must be able to modify their behavior in response to constructive criticism. They must be capable of being non-judgmental when caring for a patient and not let their own personal attitudes, perceptions, and stereotypes compromise care of the patient.
In evaluating applicants for admission and in preparing candidates for the M.D. degree, it is essential that the integrity of the curriculum be maintained, that those elements deemed necessary for the education of a physician be preserved, and that the health and safety of patients be maintained. While reasonable accommodation can be made for certain disabilities on the part of the student or candidate, those candidates and students who are disabled will be held to the same fundamental standards as their non-disabled peers.

The Creighton University School of Medicine will consider for admission any candidate who demonstrates the ability to perform the skills and abilities specified in these technical standards with or without reasonable accommodation consistent with the Americans with Disabilities Act. Candidates for the M.D. degree will be assessed on a regular basis according to the Academic Standards and the Technical Standards of the School of Medicine on their abilities to meet the requirements of the curriculum. Students interested in requesting accommodation(s) are encouraged to follow the procedures outlined in Part 4 (Americans with Disabilities Act: Information for Students) of the Student Handbook.

**AMERICANS WITH DISABILITIES ACT**

Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 address the provision of services and accommodations for qualified individuals with disabilities. Services for students with disabilities are provided to qualified students to ensure equal access to educational opportunities, programs, and activities in the most integrated setting possible. Students requesting accommodations must take the following steps:

I. Submit to the School of Medicine Office of Student Affairs a request for accommodation and supporting current documentation from a licensed physician, psychiatrist, or psychologist.

II. Submit this documentation at least 5 weeks in advance of a course, workshop, program or activity. The student may be required by the School of Medicine to provide additional evaluation materials.

Requests for accommodations are then reviewed by the Medical Education Management Team. The Coordinator of Student Support Services for Creighton University may be consulted by the MEMT.

Any student requesting accommodations must submit medical or other diagnostic documentation of the disability and any limitations, and may be required to participate in such additional evaluation of limitations as may appropriately be required by Creighton University or other agencies prior to receiving requested accommodations. The University reserves the right to provide services only to students who complete and provide written results of evaluations and service recommendations to appropriate University personnel. For more information, contact the Associate Dean for Student Affairs at 280-2905 or the Coordinator of Services for Students with Disabilities at 280-2749.
POLICY ON ATTENDANCE

A. Mandatory Activities

Regular attendance at all curricular activities is expected. Attendance at certain designated activities is **MANDATORY.** These include:

- orientation and general class meetings organized by the Office of Student Affairs, Office of Medical Education, or Departments.
- examinations and quizzes.
- small group sessions.
- clinically related activities, including but not limited to interviewing and Physical Exam sessions and Neuroscience Grand Rounds in Component I, longitudinal clinic in Component II, and clinical rotations in Components III and IV.
- sessions of the Dimensions of Clinical Medicine course in Component III.
- activities at the Clinical Assessment Center.
- any other activity designated as mandatory.

B. Absence from a Mandatory Activity

A student who will be unavoidably absent from a mandatory activity must receive written permission in advance. The student should first have the reason for the absence approved by the Component Director and then make arrangements with the Course Director to complete an assignment or alternative activity to make up the missed activity. The Associate Dean for Student Affairs must approve the arrangements. A Component III or IV student must also obtain the permission of the attending physician and in no case should be absent if patient care is compromised. Rescheduling of an examination requires prior arrangement with the Component Director or the Associate Dean for Student Affairs. Excessive requests will be denied.

Written permission for an absence is sought by completing the *Student Absence/Exception Request Form,* which is available from the Office of Medical Education web site, the Curriculum Coordinator or the Office of Student Affairs. If the request is approved, the Associate Dean for Student Affairs places the completed form in the student's permanent file.

Students are responsible for ALL missed work, regardless of the reason for the absence. Absence without permission may result in failure of the course or clerkship as well as referral to the Advancement Committee for unprofessional behavior.

C. Absence from a Mandatory Activity Due to Illness

In the case of acute illness or trauma where advance completion of a Student Absence/Exception Request Form is not possible, students must phone or email the Curriculum Coordinator or Component Director as soon as practical. In components III and IV, students must also ensure that the attending physician is aware of their illness.

A student who misses an activity due to an illness must complete a Student Absence/Request Form upon his/her return, and present a doctor’s note that explains the absence.

Failure to verify the illness may be subject to course failure and disciplinary actions for unprofessional behavior and/or failure of advancement.

The student is responsible for ALL missed work, regardless of the reason for the absence. The course director or attending physician will determine the arrangements (assignment or alternative activity) that the student must complete to make up the missed activity. If an examination has been missed, the student will be expected to take a make-up exam at the earliest possible time following his/her return.
D. Absence Associated with USMLE Step 2 CS Administration

A student is allowed two days off from an M4 elective in order to complete the USMLE Step 2 CS examination. Prior to any absence for this examination, the student must complete a Student Absence Request Form, available from the curriculum coordinator or from the Office of Student Affairs website. Students are discouraged from taking time off from the two-week clinical electives.

E. Inclement Weather

In inclement weather, cancellation of Component I and II classes follows the Creighton University policy. The Creighton University Hotline at 280-5800 will announce any University closing. Cancellation of activities for Component III and IV students, and Component II students scheduled for Longitudinal Clinic, is decided by the Clinical Site. As professionals, students are expected to fulfill their clinical responsibilities - if inclement weather delays or prohibits their attendance at clinical activities, they must contact both their physician preceptor and departmental curriculum coordinator immediately. If an exam is postponed by a University closing, students will be notified by email regarding the new date/time for the exam.

GRADING SYSTEM AND POLICY

Course Directors (including Preceptors) or courses, clerkships, and electives in the School of Medicine are the instructors of record and assign grades at the end of each course or clerkship/elective. Instructors evaluate students in a manner that is fair, unbiased, and consistent with the criteria and mechanisms announced at the beginning of the course or clerkship. Final course grades are Honors (SH), Satisfactory (SA), or Unsatisfactory (UN):

A. Honors (SH)
The student performs exceptionally well as defined by the criteria for honors in the course syllabus.

B. Satisfactory (SA)
The student completes all course requirements in a satisfactory manner as defined by the course syllabus.

C. Unsatisfactory (UN)
The student fails to meet the minimum requirements for a course, clerkship, or elective as defined in the syllabus or:

1. attains an overall course average less than 65%, or
2. fails an NBME Subject Examination from a Component III clerkship twice, or
3. fails the clinical component of a clerkship or elective, or
4. fails to complete the requirements of a course within one year, or
5. attains an overall course average below 70% AND has previously received a grade of UN and/or a temporary grade of I (i.e., the student had a final course average between 65-69%) in two or more courses in that Component.
D. Incomplete (I)*

A student may temporarily receive a grade of Incomplete (I) if he/she:

1. has a final course average between 65-69% and is eligible to take a make-up examination before receiving a final course grade. A student is eligible to take make-up examinations in a maximum of two courses per academic year. The Advancement Committee determines if a student is eligible to take a make-up exam.

2. has failed a Component III NBME Subject Examination once and is eligible to take a second NBME Subject examination before receiving a final course grade.

3. has been granted an extension to complete course requirements (e.g., OSCE, H&Ps, written assignments, etc.).

The grade of Incomplete (I) is changed to Satisfactory (SA) when the student satisfactorily completes all required work for the course, clerkship, or elective within the time granted for the extension. If the student has not completed the required work in a satisfactory manner within the time granted (in no case later than one year after the completion of the original course), the Incomplete (I) is changed to Unsatisfactory (UN).

E. Withdrawal (W)

A grade of Withdrawal (W) will be recorded and no credit received when a student officially withdraws from a course while in good standing following consultation with the Associate Dean for Student Affairs.

**POLICY ON ADVANCEMENT**

Students are advanced to the next component if they achieve satisfactory performance measured by both Academic and Professional Standards. Promotion to the next component or graduation requires a record of at least Satisfactory academic performance, with no failure outstanding in any course, clerkship or elective, and a record of Professional Conduct that indicates suitability to assume the responsibilities of the medical profession. Advancement to Component III also requires a passing score on the USMLE Step 1 examination.

**COMMENCEMENT**

Annual University Commencement ceremonies are held in May and December. Students who complete their degree programs in the Spring Semester are required to be present at the Annual Commencement Exercises in May to receive their degrees. Students who complete their degree programs in the Fall Semester may attend Commencement ceremonies in December. Diplomas will be mailed upon confirmation of the completion of all degree requirements by the respective Dean. Students who complete their degree programs during the summer receive their degrees at the end of the Summer Sessions, but no ceremony is held; these students may participate in the preceding May Commencement. All candidates who receive degrees at the end of a Fall Semester or Summer Session are listed in the next Annual Commencement Program.

**NOTE: A student may participate in only one Commencement ceremony for each degree granted.**

To participate in the May Commencement, a candidate must have successfully completed all degree requirements and must be approved for graduation, or be able to and plan to complete all requirements by the date for conferral of degrees in the following August. The respective deans of the Schools and Colleges of the University shall have the responsibility for clearing all participants in the Commencement. Those participants in the May ceremony who have not completed all degree requirements shall be so designated in the Commencement Program.
GRADUATION HONORS

Students graduating from the School of Medicine with outstanding performance may be eligible for summa cum laude, magna cum laude, or cum laude status.

a. Summa Cum Laude
   Students graduating with greater than or equal to 87.5% of course work, clerkship, and electives with Honors (SH).

b. Magna Cum Laude
   Students graduating with greater than or equal to 75% of course work, clerkship, and electives with Honors (SH).

c. Cum Laude
   Students graduating with greater than or equal to 50% of course work, clerkship, and electives with Honors (SH).

PROFESSIONAL BEHAVIOR

The regulations set forth regarding professional behavior are meant to assure that students are not only competent to undertake a career in medicine, but also that they possess honesty, ethical behavior and integrity, and a responsible attitude toward patients, other health care workers, faculty, and fellow students. The major emphasis of the policy on professional behavior is the education and development of the student and the protection of the rights of others. Unprofessional behavior on the student’s part may result in action up to and including dismissal from the School of Medicine. For more detailed information regarding professional standards, regulations, and disciplinary procedures, the student is referred to the School of Medicine Student Handbook.

CONFIDENTIALITY OF STUDENT RECORDS

Creighton’s policy relating to the confidentiality of student records is in keeping with the “Family Educational Rights and Privacy Act” (FERPA). Information about students or former students will not be released without the consent of the student other than in the exceptions stated in the Federal Act. FERPA affords students certain rights with respect to their educational records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.

   Students should submit to the Registrar, Dean, Department Chair, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the official to whom the request was submitted, that official shall advise the student of the correct official to whom the request shall be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

   Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identifying the part of the record they want changed, and specify why it is inaccurate or misleading.

   If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosures without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including Public Safety personnel and Student Health staff); a person or company with whom the University has contracted (such as an attorney, auditor, collection agency, the National Student Clearinghouse); a person serving on the Board of Directors; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses educational records without consent to officials of another school in which the student seeks or intends to enroll.

FERPA also allows the University to disclose directory information without the written consent of the student. Directory information is information contained in an education record of a student which generally would not be considered harmful or an invasion of privacy if disclosed. Directory information includes the student’s full name, the fact that the student is or has been enrolled, full time/part time status, local and permanent address(es), e-mail address, telephone number(s), date and place of birth, dates of attendance, division (school or college), class, major field(s) of study and/or curriculum, degrees and awards received, participation in officially recognized activities and sports, weight and height of members of athletic teams, photograph, and previous educational agency or institution attended by the student.

A currently enrolled student may request any or all directory information not be released by completing and filing with the Registrar’s Office a statement entitled “Student Request To Restrict Directory Information.” Such filing of this request shall be honored for the remainder of the term in which the request is filed, except that such restriction shall not apply to directory information already published or in the process of being published.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Creighton University to comply with requirements of FERPA.

The name and address of the office that administers FERPA are:

   Family Policy Compliance Office
   U.S. Department of Education
   600 Independence Avenue, SW
   Washington, DC 20202-4605

**TRANSCRIPTS**

A copy of a student’s academic record is called a transcript and is issued by the University Registrar upon written request of the student. A special Request For Transcript form is available at the Registrar’s Office, A226 or on the Registrar’s website. Copies are not made of transcripts of records on file from other institutions. Any additional copy of these must be requested by the student direct from the original issuing institution.
