Creighton University General Information

About Creighton

There is no university in the country like Creighton University in terms of size, the array of professional and graduate programs offered, and the strong commitment to Catholic and Jesuit ideals and values. Founded in 1878 and one of 28 Jesuit colleges and universities in the United States, Creighton is a vibrant and diverse learning community.

Nationally recognized for providing a challenging and balanced educational experience, the University offers a rigorous academic agenda with a broad range of disciplines, providing more than 8,000 undergraduate, graduate and professional students with interdisciplinary degree programs that emphasize education of the whole person—academically, socially and spiritually. The student body represents all 50 states and U.S. territories, as well as more than 40 countries.

More than 70 academic programs are offered in three undergraduate schools (arts and sciences, business and nursing) and six graduate and professional schools. Average class size is 22, with an 11:1 student-to-faculty ratio. Creighton study abroad programs take students to more than 50 locations around the world annually.

The University has been consistently ranked a top Midwest regional university by U.S. News & World Report and in 2015 also was among the 200 colleges and universities profiled in Princeton Review’s Colleges That Pay You Back: The 200 Best Value Colleges and What It Takes to Get In. In the Jesuit tradition of service, Creighton students last year contributed more than 1 million hours of community service locally, nationally and internationally.

Location

Omaha, with a metropolitan area population of nearly 1 million, is Nebraska’s largest city. It is located on the western bank of the Missouri River, which serves as the Nebraska-Iowa border. The city is the major urban area between Chicago and Denver and between Kansas City and Minneapolis. Creighton’s 139-acre campus is within walking distance of downtown and riverfront business, sports/recreational, cultural and entertainment districts. Creighton also is conveniently located close to hotels and the airport.

Omaha is on a number of Top 10 lists, as reported by the Greater Omaha Economic Development Partnership. These include Best City for Active Lifestyle (Wallethub.com); Most Affordable Big Cities in the U.S. (Kiplinger); Best Cities to Launch a Startup (CNN Money); Best Cities for Quality of Life (Nerdwallet.com); America’s Best Cities for Young Professionals (Forbes); and Best Cities to Raise a Family in America (Movoto Blog).

In addition to the main campus in Omaha and online education accessible from anywhere in the world, Creighton has a College of Nursing campus in Hastings, Neb., and a School of Medicine campus in Arizona. Creighton’s regional campus in Phoenix at St. Joseph’s Hospital and Medical Center is the only Catholic medical school west of Omaha.
History

Edward and Mary Lucretia Creighton, along with Edward's brother John, settled in Omaha in the mid-1850s. John married Mary Lucretia's sister Sarah Emily Wareham in 1868 and the four are considered the founders of Creighton University. Edward's work with the transcontinental telegraph and freighting, ranching, railroading and banking became a major force in the city's economic development. The two brothers were widely known for their business enterprises, and the two couples were equally widely regarded for their philanthropy.

Edward died in 1874 and his widow included $100,000 in her will to establish Creighton College in her husband's memory. Mary Lucretia died in 1876 and her executors, who included her brother-in-law John, purchased 6.2 acres of land at the northwest corner of what is currently 24th and California streets. They began to build a school and transferred the land, building and additional securities to Bishop James O'Connor of Omaha.

The bishop asked the Jesuits to operate the school and the first president, the Rev. Roman A. Shaffel, S.J., arrived in Omaha in late 1877; the school opened on Sept. 2, 1878, to 120 students. Bishop O'Connor in 1879 surrendered his trust to the Jesuits, who incorporated the University under Nebraska law.

Edward and Mary Lucretia's generosity is credited with establishing Creighton College, while John and Sarah Emily's philanthropy enlarged it to a five-school university. Today, Creighton University consists of nine schools and colleges:

- College of Arts and Sciences (1878)
- School of Medicine (1892)
- School of Law (1904)
- School of Dentistry (1905)
- School of Pharmacy and Health Professions (1905)
- Heider College of Business (1920)
- Graduate School (1926)
- College of Nursing (four-year bachelor's degree program began in 1958; college established in 1971)
- College of Professional Studies (established as University College in 1983)

Creighton Colleges and Schools

College of Arts and Sciences (http://ccas.creighton.edu)

The College of Arts and Sciences is the oldest and largest of Creighton's nine colleges and schools. The college offers more than 60 majors and minors; an 11:1 faculty-to-student ratio; and research opportunities for undergraduates in all disciplines. Creighton encourages student involvement in research through the Center for Undergraduate Research and Scholarship (CURAS); nearly 100 arts and sciences students present research at national and regional scholarly conferences annually. These efforts and others have resulted in Creighton being named among only 32 universities in the nation for undergraduate research opportunities by U.S. News & World Report — and the only Catholic university to be recognized.
More than half of the college’s students attend graduate or professional school upon graduation, at such institutions as Harvard, Stanford, Oxford and Cambridge universities. The College of Arts and Sciences hosts a chapter of Phi Beta Kappa, the nation’s oldest and most prestigious honor society for liberal arts and sciences graduates. Interdisciplinary programs include such areas as neuroscience, healthy lifestyle management, sustainability studies, digital humanities, health administration, and justice and peace studies. The Department of Journalism, Media and Computing prepares students for success in today’s technology-driven world by melding programs in journalism, graphic design and computing.

**Heider College of Business** ([http://business.creighton.edu](http://business.creighton.edu))

Established in 1920, the Heider College of Business became Creighton’s first named college in 2013, in recognition of philanthropists Charles (BSC’49) and Mary Heider. It is among only 2 percent of schools in the world accredited in both business and accounting by the Association to Advance Collegiate Schools of Business International. The faculty includes more chartered financial analysts than any other higher education institution in the world.

In 2015, Heider College was ranked a Top 100 business program by U.S. News & World Report at No. 93; undergraduate finance ranked 17th; and accounting ranked 23rd. The college reports 99 percent of recent graduates were employed or in graduate school within six months of graduation; accounting majors have had a 100 percent placement rate for the past 10 years.

Students receive real-world experience, including investing University funds through the Portfolio Practicum class; planning the Creighton Business Symposium, the largest U.S. student-planned business event; and working with the Business Ethics Alliance, the leading nonprofit dedicated to city-level business ethics programming. Programs offering interdisciplinary opportunities include 3/3 Law (business and law degrees attained in six years); Pre-Healthcare (combines a business degree with completion of requirements for health care professional programs); Bioscience and Entrepreneurship (hands-on experience in commercializing medical innovations); and the M.D./MBA (students complete an MBA during the third-year of medical school).

**College of Nursing** ([http://www.creighton.edu/nursing](http://www.creighton.edu/nursing))

The College of Nursing has achieved a national reputation for innovative programs that keep pace with the ever-changing field of nursing. For example, Creighton’s accelerated Bachelor of Science in Nursing (BSN) was one of the first in the nation and Creighton was the first nursing school in Nebraska to offer a Doctor of Nursing Practice (DNP) degree. Creighton nursing faculty members serve on state and national nursing and health care committees and organizations.

The college offers BSN, MSN and DNP programs; education is delivered at two campuses, in Omaha and Hastings, Neb., and is supplemented by select online courses and tracks. The BSN program includes a traditional four-year direct-entry pathway that allows students to start their college careers as freshmen in nursing, while the accelerated BSN is a 12-month program for college graduates who pursue nursing as a second degree. The MSN and DNP programs prepare graduates to be nurse practitioners, clinical nurse specialists, clinical nurse leaders, clinical systems administrators and nurse educators. Creighton BSN graduates meet or exceed the national average for first-time pass rates on the National Council Licensure Examination (NCLEX-RN ) and annual pass rates on the certification examination for nurse practitioner-track graduates generally range from 90 to 100 percent for first-time test-takers.
Community involvement — at home and abroad — is at the heart of Creighton nursing. Students gain hands-on learning at free health clinics in Omaha and through international health care at the Institute for Latin American Concern in the Dominican Republic (ILAC). The College of Nursing also collaborates with public and parochial schools in Omaha and surrounding areas to provide state-mandated health screenings. Creighton nursing students complete preceptorships in some of the nation’s largest hospitals as well as in small, rural hospitals or specialty hospitals.

College of Professional Studies and Summer Sessions (http://succeed.creighton.edu)

The College of Professional Studies, established in 1983 as University College, provides on-campus and online undergraduate degrees, certificates and noncredit programs for adult learners. Students enjoy small classes that offer individual attention and the ability to forge strong relationships with fellow learners and faculty. In 2014-2015, there were more than 300 students enrolled in the College of Professional Studies and more than 50 adult students graduated from more than 20 programs. The college’s online bachelor’s degree completion programs are ranked No. 1 in the region and No. 16 nationally by U.S. News & World Report.

The online Bachelor’s in Leadership includes three specialization tracks: health care management, nonprofit management and human capital management; the new online Bachelor of Arts in Healthy Lifestyle Management is designed for students who wish to pursue careers in the growing field of health and wellness. The program is unique because it is rooted in interdisciplinary teaching, research and practice to care for the whole person—body, mind and spirit. The college offers 12 undergraduate certificate programs including such offerings as business administration, theology, health administration and policy, creative writing and more.

Graduate School (http://succeed.creighton.edu)

Creighton’s first master’s degree was awarded in 1893 and the first Ph.D. was conferred in 1971. Today, the Graduate School offers more than 35 master’s degree programs, numerous doctoral programs and is a leader in interdisciplinary education with both on-campus and online programs. More than half of Creighton graduate students are enrolled in online programs.

In 2015, U.S. News & World Report ranked Creighton No. 11 in Best Online Graduate Education Programs (M.S. in Educational Leadership and M.S. in School Counseling and Preventive Mental Health) and No. 12 in Best Online Graduate Business Programs (Master of Investment Management and Financial Analysis and Master of Business Intelligence and Analytics). The Doctoral Program in Interdisciplinary Leadership (Ed.D.) is the Graduate School’s largest online program, this year drawing students from 45 states and 10 countries.

The Graduate School is continually adding to its academic offerings with distinctive and innovative programs in a wide variety of fields including business, leadership, conflict resolution, education, school counseling, humanities, health care, public health, ministry, theology and science; creative writing (MFA), East-West studies, medical anthropology, public health, emergency medical services (EMS), and health and wellness coaching. Creighton also offers graduate certificates in many fields as well as dual degrees in business, law, medicine, international relations, negotiation/conflict resolution, information technology, health care ethics, leadership and more.
School of Dentistry (http://www.creighton.edu/dentalschool)

The School of Dentistry has a reputation for excellence, last year receiving applications from more than 20 percent of those applying to dental schools nationally; the school’s faculty members serve in leadership and advisory roles with local, regional and national organizations. Graduates become general dentists or pursue residency programs, advanced degrees and specialty training in nearly all 50 states; 20 to 25 percent of Creighton dental graduates achieve post-doctoral training. Creighton is considered to have one of the most affordable private dental schools in the United States.

Hands-on clinical experience as well as community service are hallmarks of a Creighton dental education: the dental clinic serves more than 11,000 patients annually; students and faculty volunteer through OneWorld Community Health Center, “Give Kids a Smile,” Heart Ministry Clinic, Special Olympics and outreach in the Dominican Republic; and through “Building Healthy Futures,” Creighton provides preventive oral care and education to nearly 4,300 schoolchildren.

Thirty-nine percent of students come from states without dental schools; Creighton has contracts with Idaho and Wyoming and offers Western Interstate Commission for Higher Education (WICHE) seats for dental students from New Mexico, North Dakota and Wyoming. Creighton is proud to participate in the Robert Wood Johnson Foundation’s Dental Pipeline program, encouraging recruitment of Native American students.

School of Law (http://law.creighton.edu)

The School of Law was established in 1904. Today, the 300-plus students in the School of Law are taught by 33 full-time professors and 31 adjunct faculty members who are prosecutors, public defenders and other practicing attorneys. Last year’s graduates accepted offers of employment in 17 states.

Creighton law students have the flexibility to earn a J.D. degree in two, three or four years. Other programs include earning a J.D. plus a master’s degree in negotiation and dispute resolution from Creighton’s Werner Institute in three years; the Government and Leadership (GOAL) Program, which provides a J.D. and a master’s degree in three years plus an externship in Washington, D.C.; and the joint J.D./MBA with the Heider College of Business.

Innovative educational experiences in the school include a constitutional law seminar offered every other year allowing face-to-face discussion with a U.S. Supreme Court justice; the summer program, “From Nuremberg to the Hague,” featuring the study of international criminal law, war crimes and the Holocaust in Germany and The Netherlands; and an annual immersion trip to the Dominican Republic that encourages law students to reflect on life, law and poverty in a Third World nation.

The School of Law assists students interested in public-interest law by offering summer grants to first- and second-year students who accept unpaid externships with government and nonprofit law offices. Students also gain experience through the Abrahams Legal Clinic, which gives free legal services to low-income individuals, especially victims of domestic violence, and the Community Economic Development Clinic, which provides free legal services to low-income entrepreneurs.

School of Medicine (http://medschool.creighton.edu)

The School of Medicine was established in 1892 as the John A. Creighton Medical College. The school has a regional campus in Phoenix at St. Joseph’s Hospital and Medical Center, which is the only Catholic medical school campus west of Omaha. The medical school’s primary clinical partner,
CHI Health, is the largest health care network in the region and one of the top 15 health care systems in the U.S. CHI Health is affiliated with Colorado-based Catholic Health Initiatives, one of the nation's largest faith-based nonprofit health systems.

Creighton graduates’ medical licensing scores and pass rates consistently exceed the national average and 100 percent of Creighton medical students perform community service while in medical school. Creighton was the first Catholic university to receive the prestigious Community Service Award from the Association of American Medical Colleges (AAMC); the award recognized the student-founded and run Magis Medical Clinic, which provides free health care for uninsured and underinsured people in Omaha.

Faculty members and their research are world-renowned. The medical school is an international leader in hereditary cancer and osteoporosis, with other outstanding programs including infectious disease, cardiovascular disease, nutrition/metabolism and neuroscience. A landmark study conducted at Creighton suggested that boosting vitamin D3 intake can significantly reduce the risk of breast and other cancers. Researchers in biomedical sciences, medical microbiology/immunology and pharmacology are making discoveries in atherosclerosis, bacterial resistance, cancer, hearing restoration, brain injury, bone growth/bone loss and more.

**School of Pharmacy and Health Professions** ([http://spahp.creighton.edu](http://spahp.creighton.edu))

Established in 1905 as the Creighton College of Pharmacy, the School of Pharmacy and Health Professions (SPAHP) expanded over the years to include other health professions. The school is an academic pioneer, offering: the first clinical doctorates in occupational therapy (OTD) and physical therapy (DPT) in the nation; the first — and only — Web-based distance education pharmacy program; the first distance education program in occupational therapy leading to the clinical doctorate in occupational therapy; and 40 years of emergency medical services (EMS) education. SPAHP also has innovative partnerships with the University of Alaska Anchorage (OTD and Pharm.D.) and Regis University in Denver (OTD).

SPAHP faculty are renowned: the school has one of the largest OT faculties in the nation, with 18 faculty members holding terminal degrees; for more than 25 years, faculty members in the Center for Drug Information and Evidence-Based Practice have provided evidence-based, timely and unbiased information to health care professionals (fewer than 15 percent of pharmacy schools in the U.S. offer as much drug information expertise to the professional community); and the Health Services Research Program is recognized nationally for its work in patient safety.

First-time national licensure pass rates in pharmacy, OT and PT have been nearly 100 percent the past several years and more than 75 percent of the school’s students receive one to three job offers before they graduate. They have access to an expanse of clinical training sites, with a faculty-student clinical ratio of 1:3, in every health care discipline, including pediatrics, geriatrics, mental health, acute and long-term care and more. Service to others is a hallmark of the school, with students giving nearly 10,000 hours of service per semester.
Mission, Learning Outcomes, and Goals and Objectives

Mission Statement
Creighton is a Catholic and Jesuit comprehensive university committed to excellence in its undergraduate, graduate and professional programs.

As Catholic, Creighton is dedicated to the pursuit of truth in all its forms and is guided by the living tradition of the Catholic Church.

As Jesuit, Creighton participates in the tradition of the Society of Jesus which provides an integrating vision of the world that arises out of a knowledge and love of Jesus Christ.

As comprehensive, Creighton’s education embraces several colleges and professional schools and is directed to the intellectual, social, spiritual, physical and recreational aspects of students’ lives and to the promotion of justice.

Creighton exists for students and learning. Members of the Creighton community are challenged to reflect on transcendent values, including their relationship with God, in an atmosphere of freedom of inquiry, belief and religious worship. Service to others, the importance of family life, the inalienable worth of each individual and appreciation of ethnic and cultural diversity are core values of Creighton.

Creighton faculty members conduct research to enhance teaching, to contribute to the betterment of society, and to discover knowledge. Faculty and staff stimulate critical and creative thinking and provide ethical perspectives for dealing with an increasingly complex world.

University Assessment of Learning Outcomes
The University Assessment Committee has articulated six university-level outcomes that are common to all undergraduate, graduate, and professional student experience.

All Creighton graduates will demonstrate:

1. disciplinary competence and/or professional proficiency,
2. critical thinking skills,
3. Ignatian values, to include but not limited to a commitment to an exploration of faith and the promotion of justice,
4. the ability to communicate clearly and effectively,
5. deliberative reflection for personal and professional formation,
6. the ability to work effectively across race, ethnicity, culture, gender, religion and sexual orientation.

Each program defines its learning goals/graduate outcomes, and these outcomes should be in alignment with each College/School’s goals as well as the broader university-wide goals. A variety of outcome measures are used within each of the programs to provide evidence of student learning, and to assess how well the learning goals/graduate outcomes are being met.
Goals and Objectives

Creighton University exists to educate her students with a view to their intellectual expansion, social adequacy, physical development, aesthetic appreciation, and spiritual enrichment. Creighton serves her publics primarily through teaching and research. Employing the techniques of teaching and research offers numerous other opportunities to provide community services and leadership.

Creighton has behind it a pattern of more than four centuries of Jesuit teaching. The Order’s focus has always been on the total person, an approach that includes development of each student’s talents to assure that he or she can meet both material and spiritual needs.

Members of every denomination are enrolled in and welcome to all courses in the University. While Creighton fosters learning in a Christian-oriented setting and challenges students to reflect on transcendental truths, students are not required to participate in religious services or activities.

All educational programs of Creighton University are open to both men and women.

The University Assessment Plan has been established to help measure the success of Creighton’s academic programs. Each college and school has in place its own appropriate plan to determine student achievement in its programs and to implement changes for continuous improvement in Creighton’s assessment plans, and students participate with faculty and administration in striving for improvements in the teaching-learning process. In addition, the University Plan embraces Student Life, and the special areas of cultural diversity and service to others, values which are emphasized in Creighton’s Mission Statement.

Accreditations and Approvals

Creighton University is fully accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools, the accrediting agency for the region in which the University is situated.

University Libraries

The Creighton University Libraries, (Health Sciences, Law, and Reinert-Alumni) share a commitment to providing outstanding resources, expertise, and facilities to all our undergraduate, graduate and professional programs whether online or on campus. All three libraries have developed unique collections, services, and resources that are designed to maximize students’ personal and educational experiences while at Creighton and beyond. Each Library has an array of expert information professionals that provide research, database, and library related technology support to students at both on and off campus locations. Learning spaces in the University Libraries offer a variety of furnishings and technology for individual and collaborative study. Go to www.creighton.edu/libraries to explore any of the Creighton Libraries.

Campus Facilities

Creighton’s 139-acre urban campus encompasses more than 50 buildings, providing excellent facilities for the University’s academic, residential, spiritual, athletic and recreational activities. The beautifully landscaped, pedestrian-friendly campus has been recognized by the Arbor Lodge Foundation as a Tree Campus USA University, and is listed in the 2015 Princeton Review Guide to 353 Green Colleges for its strong commitment to the environment and sustainability.

The University recently made extensive campus improvements, including renovation of buildings affecting more than 100,000 square feet of academic space and completion of the east campus athletic/fitness/recreation corridor.

Recognition of Scholarship and Leadership

Creighton University applauds the scholastic effort and achievement of its students. In addition to the numerous scholarships, awards, and honor societies from each School and College that recognize student accomplishments, Creighton is proud to honor students with the following:

**Alpha Sigma Nu** is a national Jesuit honor society for men and women, awarded on the basis of scholarship, loyalty and service.

**Phi Beta Kappa**, Beta of Nebraska (Creighton Chapter). Founded in 1776, Phi Beta Kappa is the nation’s oldest honor society. It celebrates and advocates excellence in the liberal arts and sciences, and only 10 percent of American colleges and universities have earned the privilege of hosting a chapter. Once a year, the chapter invites select juniors and seniors with an outstanding academic record in the liberal arts and sciences to become members.

The **Spirit of Creighton Award** is a citation conferred on a male and a female student by the President of the University annually at Commencement for demonstrating remarkable initiative and
able enterprise, wisdom in action, modesty in achievement, and great personal sacrifice for the good of others.

The Alumni Association

Creighton University seeks to maintain lifelong relationships with former students of the University. The Creighton University Alumni Association, formed in 1892, assists the University in keeping alumni engaged with the institution. Its mission is to “advance the interests of the Creighton family through a commitment to academic excellence, Judeo/Christian ethics and a lifelong relationship between Creighton alumni and their University that enriches both.”

The Alumni Association is governed by the National Alumni Board. This board represents the alumni community in matters affecting the University; supports and assists the University in fulfilling its strategic goals; and provides services, programs and support consistent with the Alumni Association’s mission.

Alumni programs vary widely and include all-University events, Homecoming, class reunion activities, community service projects, college/school specific activities, young alumni activities, regional events, career networking and social networking. Information on the Alumni Association can be found on the web at www.alumni.creighton.edu.

Nondiscrimination Statement

Creighton University is committed to providing a safe and nondiscriminatory educational and employment environment. The University admits qualified students and hires qualified employees without regard to race, color, religion, sex, marital status, national origin, age, disability, citizenship, sexual orientation, veteran status, or other status protected by law. Its educational and employment policies, scholarship and loan programs, and other programs and activities, are administered without unlawful discrimination.

Sexual harassment, including sexual violence, is a form of sex discrimination prohibited by Title IX of the Education Amendments of 1972. The University does not discriminate on the basis of sex in its educational, extracurricular, athletic, or other programs or in the context of employment.

It is the policy of the University to make all programs and services available to individuals with disabilities. Inquiries concerning rights and responsibilities under Section 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990 should be directed to the Section 504 Coordinator. To obtain information on accessibility of buildings and programs or to report problems of accessibility, please contact Human Resources (for employees), Schneider Hall or by telephone 402.280.2709, or the Office of Disability Accommodations (for students), Old Gym 437 or by telephone 402.280.2166.

The following person has been designated to monitor compliance and to answer any questions regarding the University’s non-discrimination policies:

Ms. Allison Taylor
Executive Director
Title IX Coordinator/Section 504 Coordinator
Creighton University
Office of Disability Accommodations
Services for Students with Disabilities

Services for students with disabilities are provided to qualified students to ensure equal access to educational opportunities, programs, and activities in the most integrated setting possible. Students must make timely and appropriate disclosures and requests at least five weeks in advance of a course, workshop, program, or activity for which accommodation is requested or such other reasonable time as the particular circumstance of a request for accommodation warrants. Students are encouraged to make requests for reasonable accommodations as soon as possible after acceptance. Each student may be required to submit medical or other diagnostic documentation of disability and limitations and may be required to participate in additional evaluation of limitations as appropriate and required by Creighton University or other agencies prior to receiving requested accommodations. The University reserves the right to provide services only to students who complete and provide written results of evaluations and service recommendations to appropriate University personnel. For more information, contact the Dean’s Office or the Office of Disability Accommodations (http://www.creighton.edu/disabilitysupportservices) at 402.280.2166.

Military Leave Policy

Creighton University supports a student who is a member, or who parents a dependent child with a spouse who is a member, of a military reserve unit or the National Guard and is called into active military service by the United States. To assist him/her to maintain his/her status as Creighton student, the University has adopted the following guidelines:

Withdrawal from the University:

1. A student in good standing should immediately file a request for a leave of absence/withdrawal with the dean of the appropriate school or college in which the student is enrolled, along with a copy of the military orders.
2. The leave of absence generally will be granted for one year. However, the deans of the appropriate college are encouraged to grant any request to extend the leave of absence should military service require more than one year.
3. The student will receive a full refund of tuition and fees paid to Creighton University if the request for a leave of absence/withdrawal for military service is filed prior to the last day to drop classes.
4. The student will have a choice of three options if the request for a leave of absence/withdrawal is received after the last day to drop classes:
   a. A full refund of tuition and fees with no credit awarded for work completed during the semester.
b. An Incomplete grade in all courses, upon approval of all instructors, with the right to complete all coursework within one year without further payment of tuition or fees.

c. A grade in all courses, upon approval of all instructors, based on work completed to the date of the leave of absence request.

d. Options b) & c) may be combined should circumstances warrant.

5. The student will receive prorated refunds for his/her housing and meal-plan, if applicable, based on taking the percentage of days registered at the University over the total number of days in the semester (i.e., beginning with the first day of class and ending on the last day of finals).

6. All applicable financial aid awards will be refunded to the appropriate agencies, and repayments of federal student loans will be calculated in accordance with federal guidelines.

7. While the University will make every effort to accommodate a student returning from active duty, placement in certain honors programs at the University cannot be guaranteed.

8. The student will be required to return university property, such as keys to residence halls, university computer equipment, library books, etc. in order to receive a refund or re enroll.

Email as Official Means of Communication

The Creighton University assigned e-mail account shall be the official means of communication with all students, faculty and staff. All community members are responsible for all information sent to them via their University assigned e-mail account. Members who choose to manually forward mail from their University e-mail accounts are responsible for ensuring that all information, including attachments, is transmitted in its entirety to the preferred account.

All faculty, staff and students are required to maintain an @creighton.edu computer account. This account provides both an online identification key and a University Official E-mail address. The University sends much of its correspondence solely through e-mail. This includes, but is not limited to, policy announcements, emergency notices, meeting and event notifications, course syllabi and requirements, and correspondence between faculty, staff and students. Such correspondence is mailed only to the University Official E-mail address.

Faculty, staff and students are expected to check their e-mail on a frequent and consistent basis in order to stay current with University-related communications. Faculty, staff and students have the responsibility to recognize that certain communications may be time-critical.

Graduation Rates

Creighton University is pleased to provide information regarding our institution’s graduation/ completion rates, in compliance with the Higher Education Act of 1965, as amended. To request graduation rate information, please contact the University Registrar at 402.280.2702 or registrar@creighton.edu.

The Jesuit Order

The Jesuits are men who belong to a Catholic religious order called the Society of Jesus. This group was founded by St. Ignatius of Loyola over 460 years ago.

There are about 19,000 Jesuits serving around the world and about 2,800 of them are in the United States within 10 area provinces. The Jesuit Community at Creighton University is the largest
community of Jesuits within the Wisconsin Province. While the main focus of the Jesuits is on education, they are also involved in parish work, spiritual direction, retreat centers and social justice work. There are presently 48 Jesuits at Creighton, many of whom are faculty, staff, administrators, chaplains or students.

The Jesuit, Catholic tradition is excellence in higher education that forms women and men to be of service for and with others, and to be empowered to examine, engage and change the world.

This publication contains the most current information available on the subjects covered as of the date of publication. Any updates between the dates of publication of this Catalog and its successor Catalog will be posted on the University's website and are considered a part of this Catalog for all purposes. This publication is not an offer to enter into a contract. Final selection of applicants to be admitted shall be made by the University, which reserves the right to deny admission to any applicant for any lawful reason. The University also reserves the right to modify or eliminate University rules and policies, including without limitation: admission requirements and criteria; course offerings, or location or frequency thereof; course content; grading requirements and procedures; degree requirements; tuition, fee, and board and room rates; financial assistance programs; substantive or procedural student disciplinary rules; and support services, and to apply any such modifications to any student without regard to date of admission, application or enrollment.
School of Medicine

Mission Statement
In the Jesuit, Catholic tradition of Creighton University, the mission of the School of Medicine is to improve the human condition with a diverse body of students, faculty, and staff who provide excellence in educating students, physicians and the public, advancing knowledge, and providing comprehensive patient care.

Vision Statement
We are a School of Medicine respected nationally for our values-centered excellence in teaching, research, clinical care, and leadership. We are distinguished for preparing graduates who promote justice and achieve excellence in their chosen fields while demonstrating an extraordinary compassion and commitment to the service of others.

Curriculum Goals and Objectives

Goals
The goal of the curriculum is to develop competent, caring physicians during graduate training and practice. Our students will acquire a strong foundation in the basic and clinical sciences. In addition, they will acquire a strong foundation in the humanities, social and behavioral sciences that are relevant to the well-being of both the physician and the patient.

Objectives
To attain the Doctor of Medicine degree, the Creighton graduate must fulfill the following in the Six Competencies of Medical Education:

Patient Care
- Conduct an organized medical interview and obtain a pertinent medical history.
- Identify biopsychosocial needs of the patient.
- Perform an appropriate comprehensive physical examination.
- Present information verbally in a concise, complete and organized manner.
- Record information in a concise, complete and organized manner.
- Develop a differential diagnosis for each patient seen.
- Demonstrate effective clinical reasoning and judgment to determine an accurate diagnosis.
- Develop an appropriate treatment plan for each patient seen.
- Perform health maintenance exams.

Medical Knowledge
- Describe the normal structure and function of the human body at the whole body, organ, cellular, and molecular levels.
- Describe the pathophysiology, signs, symptoms, risk factors, diagnostic tests, and treatment of common illnesses.
• Describe the current evidence-based clinical practice guidelines for treatment of common illnesses.
• Describe the current evidence-based preventive health care strategies and recommendations.

Practice-Based Learning and Improvement
• Demonstrate the ability to critically assess the medical literature and the research methods used to investigate the management of health problems.

Interpersonal and Communication Skills
• Counsel and educate patients regarding their illness and treatment plans in an effective, concise and understandable manner.
• Communicate effectively with all members of the healthcare team.

Professionalism
• Actively participate on rounds, clinic sessions, small group sessions and labs.
• Demonstrate punctuality and availability for all duties and professional obligations.
• Demonstrate honesty and integrity with all student responsibilities.
• Demonstrate compassion and empathy in the care of patients.
• Demonstrate respect, sensitivity, and responsiveness to diversity of culture, age, race/ethnicity, gender, sexual orientation and disability.
• Identify and propose solutions to moral, ethical and legal problems in medical practice.

System-Based Knowledge
• Use a team approach to provide comprehensive care.
• Organize patient care plans that incorporate referrals to other healthcare providers and/or community agencies and resources.
• Demonstrate an awareness of the relative cost benefit of different therapeutic options.

The School of Medicine requires successful completion of all components in each of the four years of study before the Doctor of Medicine is awarded.

General Information

Following is information specifically of interest for School of Medicine students.

Accreditation

Creighton University is fully accredited (p. 8) by the Higher Learning Commission of the North Central Association of Colleges and Schools, the accrediting agency for the region in which the University is situated.

The School of Medicine is fully accredited by the Liaison Committee on Medical Education, representing the Association of American Medical Colleges and the Council on Medical Education of the American Medical Association. The School of Medicine is an institutional member of the Association of American Medical Colleges.

Health Sciences Facilities

Health Sciences Facilities

The Doctor C. C. and Mabel L. Criss Health Sciences Center is made possible largely through the generosity of the late Mabel L. Criss, whose gift commemorates her late husband, Dr. C.C. Criss. Dr. Criss was a Creighton alumnus; the couple founded Mutual of Omaha and United of Omaha.

The Criss Center provides teaching, medical laboratory space, and facilities for the research activities of the faculty of the School of Medicine. Two separate units (Criss II and III) provide classroom and laboratory facilities for instruction of the freshman and sophomore students in the preclinical medical sciences, as well as office and recently renovated laboratory space for the members of the preclinical faculty.

The Criss III building was renovated in 2003 for medical student use. The Medical Education Center includes the Office of Medical Education, small group rooms, interactive study space, an 84-seat state-of-the-art computer lab, and conference room. Adjacent to the Medical Education Center is the Office of Student Affairs. A Student Wellness Center includes student lounge space and an exercise/wellness room that is available for use 24 hours a day.

In addition, the Criss Health Sciences Center houses the administrative offices of the School of Medicine as well as accommodates the administration, faculty, and students of the College of Nursing and the School of Pharmacy and Health Professions. Another unit (Criss I) provides medical research facilities for the faculty. The Beirne Research Tower adjoins the Criss Health Sciences Center. This six-story medical research facility was made possible by a gift from Doctor Gilbert A. Beirne and his brother, Doctor Clinton G. Beirne. The Beirne Research Tower provides approximately 13,000 square feet of space for laboratories and offices. The modern, functional research tower houses the regulatory peptide research program, the infectious disease and microbiology program, a bone biology research program, the molecular biology core facility, and an allergic diseases research program.

The Hixson-Lied Science Building is connected to both Criss and Rigge Science Buildings and provides expansion space for functions of the Vice President of Health Sciences, administration and faculty offices of the School of Pharmacy and Health Professions, offices for the Department of
Preventive Medicine, classrooms, common use areas, Arts and Sciences administrative functions, and offices and classrooms for undergraduate science departments.

Creighton University has strategic affiliations with two healthcare partners to enhance students’ educational experiences.

The Creighton University School of Medicine at St. Joseph’s Hospital and Medical Center in Phoenix is the only Catholic medical school presence west of Omaha. Creighton and St. Joseph’s partnership answers the nation’s call for more physicians in the pipeline and especially in the Southwest. Students begin their studies at the Creighton University School of Medicine in Omaha and finish their last two years at the Phoenix campus.

In 2012, Creighton expanded its academic affiliation with a major Omaha health system, increasing the clinical opportunities for Creighton’s medial and other healthcare professional students. The combined health system, Alegent Creighton Health, includes more than 100 sites of service and is the largest nonprofit, faith-based healthcare provider in Nebraska and southwest Iowa. Alegent Creighton Health, as a member of the Catholic Healthcare Initiative (CHI), has 10 acute care hospitals, a large multi-specialty clinic, a specialty spine hospital and a freestanding psychiatric facility, and is known for specialty care programs in women’s and children’s, cardiovascular, orthopedic, spine, oncology, neurosciences, physical rehabilitation and behavioral health services. The CHI Creighton Health affiliation enhances both the academic experience for Creighton students and healthcare in the greater Omaha community.

St. Joseph's Hospital and Medical Center

Creighton’s School of Medicine and St. Joseph’s Hospital and Medical Center in Phoenix announced in June 2009 an academic affiliation that created a Creighton medical school presence in Phoenix.

The Phoenix campus, known as Creighton University School of Medicine at St. Joseph’s Hospital and Medical Center, is a member of Dignity Health. The Creighton campus in Phoenix is the only Catholic medical school campus located west of Omaha.

Under the new affiliation, Creighton established a fully operational campus at St. Joseph’s that offers two full years of clinical training. Creighton expanded its entering medical class from 126 to 152 students, starting in 2010. Each year forty-two, third-year students move to Phoenix for their final two years of training.

Other Clinical Facilities

In addition to the clinical facilities in the Criss Health Sciences Center, the Creighton University School of Medicine conducts additional clinical teaching, patient care, and research activities in the following institutions:

The Omaha Veterans Affairs Medical Center. The Omaha Veterans Affairs Medical Center, located at 42nd and Woolworth Avenue, is a general medical and surgical hospital of 486 beds. Consistent with the policy of Veterans Affairs, a Dean’s Committee, representing the Creighton University School of Medicine and the University of Nebraska Medical Center, directs the educational and research programs of the hospital. Undergraduate and graduate education is related to the activities of the departments of Medicine and Surgery of the School of Medicine.
Children’s Hospital and Medical Center, located at 83rd and Dodge Street, Children’s Hospital & Medical Center (www.ChildrensOmaha.org) is recognized as a 2014-15 Best Children’s Hospital by U.S. News & World Report in cardiology and heart surgery, gastroenterology and GI surgery, pulmonology and orthopedics. It is the only full-service, pediatric health care center in Nebraska providing expertise in more than 30 pediatric specialty services to children across a five-state region and beyond. Located in Omaha, the 139-bed, non-profit hospital operates the only Level II Pediatric Trauma Center in the region and offers 24-hour, in-house services by pediatric critical care specialists.

Additional teaching affiliations are maintained by the School of Medicine at Ehrling Bergquist USAF Hospital serving Offutt Air Force Base and the headquarters of STRATCOM, and Saint Mary’s Medical Center in San Francisco, California, as well as with several other teaching facilities, hospitals and medical centers within the United States.

Postdoctoral Programs in Clinical Services

Residencies

Creighton University and its clinical departments, with the cooperation of its affiliated hospitals, offer postdoctoral programs in major clinical specialties including Family Medicine, Internal Medicine, Obstetrics and Gynecology, Pathology, Psychiatry, Diagnostic Radiology, General Surgery and Urology. In addition, Creighton University serves as the training site for University of Nebraska Medical Center sponsored residents in Pediatrics and Neurology.

These are primarily residency training programs that prepare physicians for certification in a clinical specialty. These individual programs vary in length from three to five years, depending upon the specialty involved and are described in more detail on the School of Medicine (http://medschool.creighton.edu) website.

Special Programs

Medical fellowship programs are offered in allergy/immunology, cardiology, child psychiatry, colorectal surgery, endocrinology, infectious diseases, interventional cardiology, post pediatrics portal, and pulmonary/critical care.

These individual programs vary in length from one to three years, depending upon the subspecialty and are described in more detail on the School of Medicine (http://medschool.creighton.edu) website.

Wellness Council

The School of Medicine has an active Wellness Council, consisting of students from each of the four classes. In addition, students have access to the recently constructed medical school wellness center, which has lounge and exercise space. The Council is responsible for developing and instituting wellness programs relevant to students within the medical school. These include presentations on relationships, stress management, depression management, relaxation training, and other topics. The Wellness Council has sponsored fitness fairs, ice skating parties, and other activities that allow students to become active participants in their own well being. Students also contribute articles to the Wellness Chronicle (http://medschool.creighton.edu/medicine/admin/staffairs/wellness), a quarterly newsletter on medical school wellness issues.
The Office of Academic Advancement

The Office of Academic Advancement is an academic resource within the School of Medicine whose goal is to assist students in their pursuit of excellence within the medical school curriculum. The Office employs two academic success consultants who provide one to one academic consulting, and arrange tutoring, course preview sessions, examination review sessions, and skills training sessions in the areas of study skills, test-taking skills, time management, and related academic and personal enrichment areas. Faculty, administrative personnel, and students are enlisted to support students as they progress through the curriculum. The office also oversees the vital signs mentoring program.

The Office of Multicultural and Community Affairs in the Health Sciences

The Health Sciences-Office of Multicultural and Community Affairs Office, (HS-MACA) was created to help Creighton University in the training and development of future leaders for an increasingly multicultural society. HS-MACA provides support and retention services to students by providing diversity awareness to the entire campus community. HS-MACA promotes diversity through recruiting a diverse student body in the Creighton University Health Sciences Schools. HS-MACA also promotes local involvement in multicultural communities, civic functions, and community service organizations. HS-MACA coordinates multicultural activities with other areas of the University and works to enhance cultural awareness of Health Sciences faculty, students, and staff.

Professional Societies

All medical students belong to the Creighton Medical Student Government (CMSG). CMSG is an active body with representation on key committees within the School of Medicine and the University. Membership is also available in the American Medical Association (AMA-MSS), American Medical Student Association (AMSA), American Medical Women’s Association (AMWA), Student National Medical Association (SNMA).

The School of Medicine also supports two honorary societies including Alpha Omega Alpha Medical Honor Society and the Gold Humanism Honor Society. In addition, several societies and clubs are active within the school and include:

- Christian Medical and Dental Society
- Body Basics
- Creighton Eye Society
- Creighton Medical Student Government (CMSG)
- Creighton University Medical School OBGYN (CUMSOG)
- Emergency Medicine Interest Club
- Family Medicine Interest Group
- Internal Medicine Club
- Magis Clinic
- "Married to Medicine" Club
- Medical Students for Life
- Medical Students Cycling Club
• Military Medical Students Association (MMSA)
• Neurology Club
• Orthopaedics Club
• Pediatrics Interest Group
• Perinatal Experience
• Phi Chi Medical Fraternity
• Phi Rho Sigma Medical Society
• Project CURA
• Radiology Club
• Reproductive Medicine through Cultural Awareness (RECA)
• Spanish Club
• Student Physicians for Social Responsibility
• Surgery Club
• Wilderness Medical Society

Honors and Awards

The Aesculapian Award is given each year to one student in each class for guidance, compassion, and selfless service to the class, community, and university.

The William Albano Award is presented by the Department of Surgery in the School of Medicine for outstanding research activity.

Membership in Alpha Omega Alpha Medical Honor Society is awarded for scholarship, personal honesty, and potential leadership in the field of medicine. Alpha Omega Alpha is a national honor medical society founded in 1902. The Creighton Chapter was chartered in 1956. The most prominent requisite for membership is evidence of scholarship in a broad sense. The motto of the society is “Worthy to serve the suffering.”

Membership in Alpha Sigma Nu is awarded for scholarship, loyalty, and service. Alpha Sigma Nu is a national Jesuit honor society for men and women established in 1915. Chapters exist in the Jesuit universities of the United States. Membership may be earned by students in each division of the University, including the School of Medicine.

The Nebraska Chapter of the American Academy of Pediatrics Outstanding Pediatric Student Award is presented by the Department of Pediatrics to the senior student who has shown exceptional interest and ability in the area of pediatrics.

The Carole R. and Peter E. Doris Outstanding Student in Radiology Award is given by the Doris’ to an outstanding student entering the field of radiology.

The Creighton University School of Medicine Chapter of the Gold Humanism Honor Society was established in 2004 to recognize exceptional senior medical students for their integrity, respect, compassion, empathy, and altruism-the qualities of the humanistic healer.

The Dr. Michael J. Haller Family Medicine Outstanding Student Award is given by the Nebraska Academy of Family Physicians to an outstanding senior student entering the field of family medicine.
Honors and Awards

The Dr. Walter J. Holden Obstetrics and Gynecology Outstanding Student Award is given by the Department of Obstetrics and Gynecology to a senior student who has shown outstanding academic ability, clinical skills, maturity, and dedication while pursuing the field of obstetrics and gynecology.

The Dr. Frank J. Menolascino Outstanding Student in Psychiatry Award is given by the Creighton/Nebraska Department of Psychiatry to the senior student who has shown outstanding academic ability, strong clinical skills, maturity, dedication to learning, and high professional standards while pursuing the field of psychiatry.

The Merck Manual Awards are presented to three exceptional senior students in medical studies.

The Dr. Simon L. Moskowitz Family Medicine Award is given by the Department of Family Medicine to a senior student for excellence in medical studies, involvement in family medicine, and motivation in family medicine postgraduate study.

The Walter J. O'Donohue, Jr., M.D. Achievement Award is given by the Department of Internal Medicine to a senior student whose academic excellence, altruism, and high ethical standards demonstrate the legacy of Dr. Walter J. O'Donohue.

The Dr. Adolph Sachs Award to the senior student who has performed with extraordinary academic distinction throughout the four years in the School of Medicine.

The Outstanding Service to the School of Medicine Award, presented by the Office of Medical Admissions, to a senior medical student for excellent leadership and tireless dedication to the admission process.

The Outstanding Service to the School of Medicine Award, presented by the Offices of Student Affairs and Medical Education to a senior medical student who has shown exceptional leadership, maturity, and service.

The Dr. John F. Sheehan Award is presented by the Department of Pathology to a senior student for excellence in the field of pathology.

The Outstanding Student in Surgery Award is presented by the Department of Surgery to the senior student who most exemplifies the qualities of the surgeon – scholarship, integrity, and humane dedication to the surgical patient, his/her problems, and care.

The Leonard Tow Humanism in Medicine Award, sponsored by the Arnold P. Gold Foundation, is presented to a student and a faculty member who most demonstrates compassion and empathy in the delivery of care to patients and their families.

Outstanding Medical Student in Family Medicine Award, presented by the Department of Family Medicine, Phoenix Regional Campus.

Outstanding Medical Student in Internal Medicine Award, presented by the Department of Internal Medicine, Phoenix Regional Campus.

Outstanding Medical Student in Obstetrics and Gynecology Award, presented by the Department of Obstetrics and Gynecology, Phoenix Regional Campus.

Outstanding Medical Student in Pediatrics Award, presented by the Department of Pediatrics, Phoenix Regional Campus.
Outstanding Medical Student in Psychiatry Award, presented by the Department of Psychiatry, Phoenix Regional Campus.

Outstanding Medical Student in General Surgery Award, presented by the Department of Surgery, Phoenix Regional Campus.

**Special Lectures**

**Vincent Runco Jr., M.D. Visiting Scholar Program**

In 1961, Vincent Runco Jr., M.D. and Richard Booth, M.D. established the region’s first cardiac center at St. Joseph’s Hospital. For 31 years, until his retirement in 1992, Dr. Runco helped educate more than 2,700 medical students and more than 1,000 residents. Together with Dr. Booth, he co-founded the Creighton Cardiac Center.

The two cardiologists set as a cornerstone of the program the education of area physicians on advancements in the diagnosis and treatment of heart disease, and one of them traveled each week to outlying communities to conduct seminars. They established the Cardiology Fellowship Training Program; over the years, 121 cardiologists completed the program.

Dr. Runco served as chief of Cardiology and as medical director of Creighton’s Cardiac Fellowship Training and Outreach programs, St. Joseph Hospital Coronary Care Unit, the Nebraska-South Dakota Regional Physician Coronary Care Training Program, and the Nebraska Regional Program on Coronary Care Training and Support.

**Thomas Timothy Smith, M.D. Lecture**

Thomas Timothy (T.T.) Smith, M.D. attended Creighton University as an undergraduate and received his medical degree from the School of Medicine in 1933. He completed a residency in otolaryngology and received a master’s degree in medicine from the University of Pennsylvania. Following military service, he returned to Omaha in 1946 to practice in otolaryngology. He served on the School of Medicine faculty and was named department chair in 1950, a position he held until 1974.

Dr. Smith’s special interests were nasal allergies and head and neck cancer. He was a master endoscopist with a talent for foreign body removal. He dedicated himself to the education of students, residents and practicing physicians and was responsible for the introduction of ear microsurgery in Omaha in the 1950s.

Dr. Smith assumed a leadership role in the initial planning of the Boys Town Institute for Communication Disorders in Children, known today the Boys Town National Research Hospital.

**Frank J. Menolascino, M.D. Memorial Lecture**

Frank Menolascino, M.D. was a native Omahan who received international acclaim for improvements in the comprehensive, humane care of persons with mental retardation. He championed social normalization and concurrent medical-psychiatric evaluation of those with under-recognized and underserved neuropsychiatric syndromes.

As a research psychiatrist at Nebraska Psychiatric Institute, Dr. Menolascino established the first inpatient program in the country for mental retardation and started the first national research project devoted to in-patient and out-patient care of this underserved population. In the late 1960s, with Dr.
Wolf Wolfensberger, Dr. Menolascino established the Principles of Normalization in North America, and the two acquired funding for the Eastern Nebraska Community Office of Retardation (ENCOR), a pioneering, community-based program and a model of service, research and training.

Dr. Menolascino’s seminal book in 1970, Psychiatric Approaches to Mental Retardation, was instrumental in explaining mental illness aspects of mental retardation. His additional 20 books increased knowledge of psychiatric causes and treatment needs of persons with mental retardation. He was a contributor to the President’s Committee on Mental Retardation and the National Institute of Mental Health and received national and international awards for his work.

Medical Alumni Board

The Creighton University Medical Alumni Advisory Board is a national organization of 32 alumni volunteers whose principal function is to assist, advise, and recommend on matters involving the School of Medicine, including fund-raising. The board meets twice annually in May and October and members serve a term of three years.
Admission

It is the admission policy of Creighton University to admit qualified students within the limits of its resources and facilities. See also the University’s Nondiscrimination Policy (p. 11).

Students accepted by the Committee on Admissions enter the School of Medicine only at the beginning of the school year for which they are accepted and registration is closed one week after instruction has started for the first semester.

Application Process

Application is made through the American Medical College Application Service (AMCAS). Applicants are required to file electronically on the AAMC website (http://www.aamc.org). Applications must be filed between June 1 and November 1 of the year preceding the year in which the applicant desires to enter. Early filing is advisable.

All of the AMCAS requirements for credentials and letters of support must be met and materials submitted to the Washington, D.C. office. The application will then be forwarded to the Creighton University School of Medicine. A supplemental application and fee is required upon request by the School of Medicine for filing and processing the application. This fee is not refundable.

All supplementary information requested to complete the AMCAS application must be received at the Creighton University School of Medicine Office of Medical Admissions by January 15.

Requirements for Admission

Educational Requirements

The minimum educational requirements for admission to the School of Medicine is the completion of a bachelor’s degree and all course requirements. Please note that all course requirements need to be completed by June 1 of the matriculating year. In addition, all course requirements must be completed at an accredited college or university located within the United States or Canada.

College studies prior to admission to the School of Medicine should include subjects appropriate to a liberal arts education. The following courses are required for admission and are considered essential for the successful pursuit of the medical curriculum at Creighton University.

Required Courses

• Biochemistry
• Human/Animal Physiology at the advanced level
• Statistics
• English: two courses that emphasize writing

1. Creighton considers physiology courses that have a general biology and/or general chemistry prerequisite to be advanced level courses.
2. Fall 2016 applicants may fulfill the statistics requirement by one of the following options:
a. completing a specific statistics course.
b. completing a non-statics course that includes coursework that provides the applicant with foundational statistical concepts

3. Fall 2017 applicants will need to complete a statistics course in order to fulfill the requirement

Preference for Admission
Preference for Admission will be given to applicants who complete at least one advanced science course, in addition to the required coursework, that builds a foundation within human or molecular-cellular biology.

Extracurricular Requirements
The Committee on Admissions will select those applicants whom they judge to be the best qualified for the study and practice of medicine. In evaluating the applicants, consideration will be given to all of the qualities considered to be necessary in a physician: intellectual curiosity, emotional maturity, honesty, and proper motivation, and proven scholastic ability.

In addition, the Committee on Admissions requires applicants to have a foundation in the following activities:

- Commitment to "service of others" through non-medical volunteer activities
- Physician shadowing experiences
- Patient contact through clinical and/or medical experiences

Scientific research, though not required for admission, is also highly valued by the Committee on Admissions.

US Residency Requirements
Creighton University School of Medicine requires applicants to be either United States citizens or United States permanent residents in order to qualify for admission.

MCAT
Applicants are encouraged to take the Medical College Admission Test (MCAT) in the spring or summer of the year preceding their application to medical school. MCAT scores received from examinations taken more than three years before matriculation will not be considered.

In addition to Creighton's course prerequisites, applicants are encouraged to complete courses that will assist them in achieving competitive scores on the MCAT. Applicants should review the MCAT website for a listing of courses that will provide the academic foundational concepts needed to be prepared to sit for the test.

Application Process
Applications should be submitted through AMCAS (American Medical College Application Service) as early as possible. Applicants are also required to complete the Creighton secondary application. All applicants who submit a verified AMCAS to Creighton are invited to submit the Creighton secondary application.
An evaluation by the Premedical Committee of the applicant's college academic record is required, if available. If the applicant's college does not have such a committee, the applicant is asked to submit three letters of recommendation. The letters should be submitted to the AMCAS letter service in Washington D.C. The letters should be submitted by the official premedical adviser, and by two faculty members (one science and one non-science) selected by the candidate. Applicants who do not have a premedical advisor are asked to submit three letters of recommendation from faculty members (two science and one non-science).

The school requires a formal interview of every applicant selected before it finalizes the acceptance. The interview will be held on the university campus.

Applicants must be able to perform the physical, intellectual, and communicational functions necessary for the study and practice of medicine. Please consult the School of Medicine's Student Handbook for details on Technical Standards. Before matriculation, accepted applicants are required to submit to the Student Health Service a Confidential Health Report and must have all required immunizations. Accepted applicants will also be subject to a criminal background check, and be tested for illicit drug use.

Fulfillment of the specific requirements does not insure admission to the School of Medicine. The Committee on Admissions will select those applicants whom they judge to be the best qualified for the study and practice of medicine. In evaluating the applicants, consideration will be given to all of the qualities considered to be necessary in a physician: Intellectual curiosity, emotional maturity, honesty, proper motivation, and proven scholastic ability. The Committee on Admissions also highly values evidence of humanitarian actions, volunteerism in the service of others, and leadership skills. Extracurricular shadowing of physicians and/or work or volunteer experience related to the delivery of health care, as well as scientific research are also highly valued by the Committee on Medical Admissions.

Acceptance Procedures—Reservation and Deposit

Each applicant will be informed in writing by the Assistant Dean for Admission of the School of Medicine of the outcome of his or her application.

Within 14 days following the date of an acceptance into the M1 class, the applicant must submit a written reply to the Assistant Dean of Admission.

This written reply may be either a:

1. Formal reservation of the place offered by paying the $100 enrollment reservation deposit. (Such deposit will be refunded upon request made prior to April 30.)
2. Refusal of the place offered and withdrawal of application.

Enrollment deposits are refundable up to April 30 of the matriculation year. Enrollment deposits will be credited to the student's first semester's tuition.

An applicant who provides written notice of cancellation within three days (excluding Saturday, Sunday and federal and state holidays) of signing the Formal Reservation is entitled to a refund of all monies paid. The school shall provide the 100% refund no later than 30 days of receiving the notice of cancellation.
Advanced Standing

Admission with advanced standing into the third year will be considered for qualified applicants. The number of available places will be determined by the total facilities of the school for accommodating students in each class and student attrition during any given year. Admission decisions will be determined by the Executive Committee on Admissions.

Evaluation criteria for advanced standing applicants include:

1. Aptitude for the mission of Creighton University School of Medicine, as demonstrated by a record of service to the community.
2. A Creighton University affiliation (for example, prior matriculation in a Creighton University school/college, legacy relationship).
3. Academic transcript from the applicant’s undergraduate university and current medical school.
4. Completion of all prerequisite coursework required.
5. All applicants will be required to have received their bachelor’s degree at an accredited institution within the United States or Canada.
7. Three letters of recommendation from current medical school faculty.
8. Letter from the Dean of the applicant’s current medical school noting that the applicant is in good standing and eligibility for promotion into the next academic year. This letter should also include any academic or professionalism infractions.
9. Personal interview.
10. Students must have taken USMLE Step 1 and must provide an official NBME transcript to Creighton University School of Medicine.
11. Students must have previously applied to an LCME-accredited medical school through AMCAS.
12. Students must submit a verified AMCAS from their most recent application to medical school.
13. Student must submit a $150.00 fee upon submission of their application. The application fee is non-refundable.

Requests for advanced standing will be processed by the Creighton University School of Medicine Office of Medical Admissions.

Orientation

All students entering the first year of medical school are required to participate in an orientation session prior to the first day of classes. Orientation includes information and programs on a variety of topics including the curriculum, policies of the medical school, student life, wellness, and an introduction to small-group learning. Students are also expected to register during this time. Orientation is highlighted by the White Coat Ceremony and the Creighton Medical School Government picnic.
Student Life

When admitting a student, Creighton does so with a sincere concern for the student’s well-being. With this in mind, the following services, in addition to those described elsewhere in this Catalog, are designed to assist each student to attain fulfillment in the university environment.

Living Accommodations

A limited number of University-owned apartments are available to professional students, graduate students and students with families. See complete explanation and pricing below or at the Department of Residence Life (http://www.creighton.edu/residencelife) website.

On Campus Housing

Creighton University offers on-campus housing for all full-time matriculated students. All unmarried undergraduate students from outside the immediate Omaha area (as defined by the University) are required to live in University residence halls during their first two years at the University. Students from the Omaha area may live in the residence halls. Otherwise, during their first two years at the University, students from the Omaha area must live with a parent or guardian. A request to be exempt from the residency requirement must be made in writing to the Office of the Associate Vice Provost for Student Life-Residence Life by July 15th for requests for the upcoming Fall Semester (April 1 for Opus Hall and Davis Square students) and December 1 for the Spring Semester. Only the Associate Vice Provost for Student Life will be able to permit these exemptions. A resident must be a full-time, matriculated student at the University. If space allows, the University may permit housing of part-time students in University residence halls.

The University operates nine residence halls. Deglman, Kiewit, and Gallagher Halls are traditional-style freshman residence halls with common bathroom facilities. Rooms are double occupancy. Space in Swanson Hall is available to freshman students as well. Swanson is a suite-style hall with four freshman or four sophomore students per suite. McGloin Hall is also a suite-style hall with four sophomore students per suite. Kenefick Hall is an apartment-style hall for sophomores with double-occupancy efficiency and one-bedroom apartments. Davis Square and Opus Hall, apartment complexes for junior and senior-level students, house students in two, three, or four-bedroom apartments. Heider Hall is an apartment-style residence with double-occupancy efficiency, one-bedroom, and two-bedroom apartments open to sophomore, junior and senior undergraduates. A limited number of apartments is available to students with families and graduate/professional students. Residents of Davis Square and Opus Hall, as well as Heider residents who are graduate/professional students, married, or have families, sign a 12-month lease. All other students contract for the full academic year, beginning in August and continuing until the end of exams the following May.

The residence hall agreement is for room and board. All freshman and sophomore residents are required to have a meal plan. Students living in Deglman, Gallagher, Kiewit, Swanson, and McGloin Halls must choose from 12, 15, or 19 meals per week. Kenefick Hall residents and sophomores living in Heider must select from these three plans or the SuperFlex meal plan. Residents of Davis Square, Opus Hall, and Heider Hall (except sophomores) may purchase 12, 15, or 19 meals per week, the Super Flex meal plan or the Flex meal plan. A student requesting to be waived from the board plan for medical or other reasons must furnish documentation to the Associate Vice Provost for Student
Life-Residence Life for review. Generally, the University Dining Services is able to meet most dietary needs. Board plans are also available to off campus and commuting students.

Meals are served in the Becker and Brandeis dining areas located adjacent to the campus residence halls. Students on the board plans may also have dinner in other campus retail locations as part of the meal exchange program. More information about dining opportunities is available from Sodexho food service located on the lower level of Brandeis Hall.

The annual room and board rates in University residence halls effective August 2014 are:

1 Available to Kenefick, Heider, Davis, Opus, Off-Campus Only
2 Available to Davis, Opus, Heider (except sophomores), Off-Campus Only

New students must apply to the Department of Residence Life for a residence hall reservation. All students pay a damage deposit of $100. Each semester’s tuition, fees, and room and board charges are payable at the time of registration. However, arrangements may be made to pay monthly installments by using the University’s Monthly Electronic Transfer (MET) (http://catalog.creighton.edu/graduate/tuition-fees/financial-arrangements) plan.

Room and board rates are subject to change without notice. Any special needs as to age or physical condition requiring special housing arrangements will be given full consideration by the Associate Vice President for Student Services-Residence Life. Questions regarding housing services and facilities may be directed to the Department of Residence Life, Harper Center for Student Life and Learning; telephone 402.280.3900.

Family Housing

Creighton University has limited space in the apartment-style Heider residence hall for families. A twelve-month lease is required on all apartments except for those graduating at the end of the current semester. Available for families are the large one-bedroom apartments (655 sq. ft.) and two-bedroom apartments (1215 sq. ft.). There are only four two-bedroom apartments in Heider Hall. Family housing is available on a first-come, first-served basis.

Off Campus Housing

The Department of Residence Life lists information on rentals in the area of campus. The actual arrangements for housing are left to the individual students. The University is not responsible for
the rental agreements between students and their landlords. It is suggested that students set aside several days before registering to search, inspect, and contract for suitable housing.

**Child Development Center**

Students with children may wish to take advantage of the James R. Russell Child Development Center, which is conveniently located at 2222 Burt Street. The Center has reasonable rates, and can accommodate children ranging in age from six weeks through five years. All full-time students may qualify for a tuition discount or state funded child care assistance; undergraduate student parents may qualify for priority enrollment. Call 402.280.2460 or access creighton.edu/childdevelopmentcenter for information.

**Center for Health and Counseling**

The Center for Health and Counseling houses both Student Health and Student Counseling Services and is located in Suite 1034 of the Harper Center. Together these services are dedicated to promoting healthy life choices and serving the health and counseling needs of Creighton students.

**Academic Year Hours:**
- Monday, Thursday, Friday 8:00am - 4:30pm
- Tuesday 10:00am - 6:30pm
- Wednesday 8:00am - 6:30pm

**Summer and Academic Year Break Hours:**
- Monday-Friday 8:00am - 4:30pm

1 From the Monday after May graduation through Tuesday following Labor Day

**Student Counseling Services**

Counseling services are available to all full-time Creighton Students. The counseling services are intended to assist all students in their growth, their adjustment to academic and life challenges, and their development of healthy strategies for living. Our services encourage positive health and wellness practices. The staff is sensitive to the cultural and life-style uniqueness of all students. We offer a variety of services to assist with the choices in college life:

- Individual counseling
- Psychological assessment to address academic problems
- Group counseling with groups focusing on women’s issues, depression, grief, and transition to college
- Workshops for test anxiety and stress reduction
- Couples counseling
- Psychiatric consultation

Counseling Services staff (full and part time) consists of four licensed psychologists, three licensed counselors, two pre-doctoral psychology interns, and a Board Certified Psychiatrist.

Call the Center at 402.280.2735 for an appointment, or drop in. All counseling services are confidential. The Center is accredited by the International Association of Counseling Services.
Counseling services are offered at no cost to Creighton students. There is a fee for some psychological assessment services.

**Student Health Services**

**Student Health Services Staff**

Debra C. Saure, MSN, APRN, FACHA Senior Director  
Nathan Haecker, MD, Medical Director  
Angela Maynard, BSN, CPN, Assistant Director, Clinical Services  
Susan Weston, RN, Assistant Director, Campus Outreach

**Mission Statement**

We provide holistic health care that supports students in their academic endeavors and prepares them to make healthy choices throughout their lives. We monitor compliance with University immunization and insurance requirements. Our outreach programs enhance the health of the campus community.

**Student Health Services**

The variety of services available at Creighton University Student Health Services will meet the health care needs of most students. Every effort is made to help students obtain appropriate consultation or referral when additional or specialized services are required. A physician, physician's assistant, or nurse practitioner provides services. Services are available to all currently enrolled Creighton University students.

**Services Available:**

* Allergy Injections  
* Laboratory/Radiology  
* Sick Care  
* Health and Wellness Promotion  
* Travel Health  
* Physical Exams (including Pap Smears)  
* Immunizations/Flu Shots

Services are supported by student fees, personal insurance, and/or self pay. Services not covered by personal/family health insurance will be the financial responsibility of the student.

It is essential that a current insurance card be presented at each visit.

**How to Obtain Student Health Services**

Call 402.280.2735, Monday through Friday. Appointments should be made for all health needs other than emergencies. It is important that you keep scheduled appointments and that you arrive on time. If you will be late or must cancel, please call as soon as possible. Your courtesy will result in the best use of our available appointment times.

Students will be seen in the Center for Health and Counseling, located in Suite 1034 of the Harper Center.
Who Provides the Services?

Physicians, and nationally certified Physician's Assistants and Nurse Practitioners are the core provider staff. An auxiliary staff of Registered Nurses, Licensed Practical Nurses, Medical Assistants and clerical personnel supports them.

Medical specialty and dental care is provided by referral to physicians and dentists within the community.

Participating Provider

Our providers participate with many insurance plans, including BCBS. We are not currently Medicaid or Medicare preferred providers.

All claims are automatically submitted to the insurance carrier indicated by the student at the time services are provided.

It is important to check with your insurance plan to verify the benefit level for services obtained away from home. Some plans require a referral for Out of Network services. The student will be responsible for initiating the referral process required by their insurance company.

After Hours Care

Urgent care services are available at local urgent care centers. These centers have laboratory and x-ray services and can treat most acute illness or injury. Creighton University Medical Center’s Emergency Department is conveniently located adjacent to campus. Any after-hours care received will be the financial responsibility of the student. Campus Health Aides are available to students living in Residence Halls and can be reached by calling 402.280.2104.

Services Available during the Summer

Services provided during the summer are the same as those offered during the academic year. These services are provided through personal health insurance and/or self-pay.

We offer two online resources for all students:

Student Health 101 Newsletter: This is an interactive informative monthly newsletter. Learn more about specific issues facing college students and watch from other students regarding campus life, healthy eating on a limited budget, roommate issues, exercise, and so much more at www.creighton.edu/chc

Online Student Health: Please enroll at https://medicatweb.creighton.edu to receive secure messages from the Center for Health and Counseling.

Student Health Services is responsible for maintaining the records that relate to the following University requirements. Please contact us if you have any questions.

University Immunization Requirement

All Creighton University students are required to comply with the University’s Immunization requirements. Failure to meet these requirements will result in denial of registration privileges and
exclusion from clinical activities. Immunization requirements follow CDC guidelines and are reviewed annually.

All Students attending classes on Campus:

**Measles, Mumps, & Rubella (MMR)**
2 doses MMR vaccine given after the 1st birthday and at least 30 days apart are required of all students born after 1957
OR
Positive blood tests showing immunity for Measles, Mumps and Rubella. (History of illness does NOT meet the requirement)

All Students living on Campus:

**Measles, Mumps, & Rubella (MMR)** (See Above under ALL STUDENTS)

**Meningitis Vaccine**
1 dose Meningitis vaccine given after 16 years of age. Applies to ages 21 and under.

**Tdap Vaccine**
1 dose Tdap vaccine (Tetanus, Diphtheria, Pertussis)

**Varicella (Chicken Pox)** Verification of chickenpox disease
OR
2 doses Varicella vaccine

International Students:

Must meet requirements for ALL STUDENTS (see above).
If living on campus, must also meet requirements for ALL RESIDENT STUDENTS.

**Tuberculosis Screening**
Tuberculosis Screening will be done upon arrival to campus unless documentation is provided of a negative PPD skin test done within the past 12 months. *PPD skin test required regardless of prior BCG vaccine. Student with a history of a positive PPD: Chest X-ray done within the past 12 months in the United States OR QuantiFERON Gold testing

Health Science Students enrolled in Dental, EMS, Medical, Nursing, Pharmacy and Health Professions:

**Measles, Mumps, & Rubella (MMR)**
2 doses MMR vaccine given after the 1st birthday and at least 30 days apart are required of all students, regardless of age
OR
Positive blood tests showing immunity for Measles, Mumps and Rubella. (History of illness does NOT meet the requirement)

**DPT/Td/Tdap Vaccine**
3 dose series. 1 dose must be a Tdap vaccine given after licensure in 2005.
3-dose series OR A positive blood test proving immunity.

**Hepatitis B**
3-dose series AND a positive blood test showing immunity (Hepatitis B surface antibody test). A positive blood test alone meets the requirement.

**Varicella (Chicken Pox)**
2 doses Varicella vaccine or . History of illness does NOT meet requirement for Health Science Students.

**Tuberculosis Screening**
- Initial 2-step screening.
  2 separate PPD skin tests given and read at least 1 week apart. 2 tests in a 12 month period also acceptable.
- Annual PPD screening
- Students with a history of a positive skin test: Chest x-ray done in U.S. in the past 12 months
- Annual Provider Review/QuantiFERON Gold

**Annual Influenza Vaccine**
This is due before December 1 each year.

**Meningitis Vaccine (IF LIVING ON CAMPUS)**
1 dose Meningitis vaccine given after 16 years of age. Applies to ages 21 and under.

Additional vaccine information can be found at www.cdc.gov/nip/publications/vis (http://www.cdc.gov/vaccines/hcp/vis)

**University Health Insurance Requirements**

**University Health Insurance Requirement:**
Comprehensive Health Insurance (Emergency only coverage does not satisfy this requirement) is required for ALL Full-time students and must include the following:

- National Coverage for inpatient and outpatient medical care.
- National Coverage for inpatient and outpatient mental health care.
- Coverage is currently active and maintained for the entire school year, including summers.
- Offers an unlimited lifetime maximum or meets federal guidelines.

Automatic enrollment into the University sponsored Plan will occur and the tuition statement will reflect a charge for the entire premium when Student Health Services becomes aware of a lapse in the student’s health coverage.

1 Undergraduate: 12 credits/semester; Graduate: 9 credits/semester
Creighton University Student Health Insurance Plan

As a service to students, the University endorses a comprehensive health insurance plan. This plan is available at a reasonable group rate and provides year-round coverage, wherever the student may be, as long as the semi-annual premium is paid and eligibility requirements are met.

Loss or damage to University property and equipment and excessive use of laboratory materials are charged to the student or students responsible.

\(^1\) Registration is not complete until financial arrangements have been made.

\(^2\) Transcripts, grade reports, and diplomas are released only when outstanding balances have been paid.

\(^3\) This charge for each full-time student may be waived if the student presents evidence that he or she carries insurance that provides coverage at least comparable to the student insurance offered by the University.

**Estimating Basic Costs**

A medical education involves a considerable expenditure of funds by the student. Advice, and assistance when possible, is available to students with financial problems. However, the University must presume that those who seek admission will be able to meet the financial obligations that occur during the four years of the medical school program.

In addition to the regular expenditures for daily living, the costs of tuition, textbooks, and health insurance will approximate the following amounts, which are subject to change. The applicant for admission should assume that the annual tuition will change and is likely to increase each year during the four years of the medical program. The cost of textbooks and health insurance is based upon requirements and estimated prices for the current year.

</tbody>
</table>
Books/Supplies $1,730
Health Insurance $2,500
Total $76,192

Textbooks and Supplies

At the time of each semester registration, all students must provide themselves with the textbooks and supplies prescribed. A list of these is provided for each course. A list of the prescribed textbooks is also on file at the Campus Store. These books and supplies are indispensable for the proper study of medicine with many being required. A personal computer is strongly recommended and included in the estimated basic costs listed above. Please contact the Office of Medical Education in the School of Medicine for current recommendations.

Financial Arrangements

Tuition and fees and board and room charges are payable at the time of registration for a semester. However, arrangements may be made to pay monthly installments by using the University’s Monthly Electronic Tuition Payment (MET) plan. Participation in this plan will be limited to the unpaid balance after all financial aid credits have been applied. Information on enrolling in the MET plan will be sent via e-mail in early May to incoming students who have paid a deposit. Current students are sent an e-mail reminder in late April.

Books and supplies may be purchased at the Campus Bookstore. These items must be paid for when they are obtained.

Students are encouraged to pay tuition and other expenses online via the NEST. The University will cash checks for students with a $200 limit per day in the Business Office. Checks returned for insufficient funds will be assessed a $25 fee. The University reserves the right to revoke or to deny this privilege to any individual at any time.

Late Payment Policy

A late payment fee will be added to charges assessed at registration that remain unpaid after the period for registration. This fee is $165 for the first month and an additional fee is charged for each subsequent month that the account remains unpaid. Accounts with unpaid balances less than $500 will be subject to a $70 monthly late payment fee; accounts with unpaid balances greater than $500 are subject to a $85 monthly late payment fee. Students with questions regarding their financial responsibilities are invited to contact the Business Office to request an appointment for individual counseling.

Withdrawals and Refunds

Students who withdraw from school before completing 60% of the semester are entitled to a refund of a portion of tuition. The refund amount is based on a pro rata percentage determined by dividing the number of calendar days attended, up to and including the withdrawal date, by the number of calendar days in the semester. The total number of calendar days in the semester includes weekends and excludes scheduled breaks of five or more calendar days. Fees are not refundable.
Withdrawals and Refunds

Students receiving federal financial aid who do not complete 60% of the semester will have aid eligibility recalculated and funds may be returned to the appropriate Title IV program in accordance with the Return of Title IV Funds regulations.

For all students having completed 60% or more of the semester, no tuition will be refunded nor will federal funds be subject to recalculation.

Refunds of Creighton University room rent for withdrawals will be prorated on a weekly basis.
Financial Aid

Financial aid available for medical students is described below. Students wishing financial aid should review this material and familiarize themselves with the various programs. Student financial aid is not available for students who are not citizens or permanent residents of the United States. Financial aid benefits previously granted to undergraduates do not necessarily extend into the School of Medicine or other professional schools.

All forms and inquiries regarding financial aid for medical students should be directed to:

Financial Aid Coordinator’s Office
School of Medicine
Creighton University
2500 California Plaza
Omaha, NE 68178
Telephone: 402.280.2666

General information on procedures for applying for aid can also be found at www.creighton.edu/finaid.

Application Procedures

1. Apply for admission for Creighton’s School of Medicine. No financial aid commitment can be made until a student is accepted for admission.

2. Complete the Free Application for Federal Student Aid (FAFSA) or the Renewal Application and submit for processing. You should not complete or mail this application until after January 1. Students interested in the Primary Care Loan must provide parental information on the FAFSA.

3. Students are notified of their aid options by an award letter with instructions on how to respond to the aid offer on-line. Medical students receive an email to their Creighton University account when their award is available to accept.

It is recommended that applications for financial aid be made between January 1 and March 15 preceding the fall semester in which one plans to enroll.

Disbursements and Use of Awards

All financial aid advanced by Creighton University must be used to pay tuition, fees, and University board and room charges before any other direct or indirect educational costs. One half of the total annual award is disbursed each semester.

Satisfactory Academic Progress Policy

Federal regulations require that students must be making satisfactory academic progress, as defined by the school, to be eligible for federal student aid. Satisfactory Academic Progress (SAP) is the successful completion of degree requirements within the maximum timeframe allowed to earn the degree. The progress of each medical student will be monitored at the conclusion of each academic year to determine that the student is making satisfactory academic progress.
Qualitative Requirements

In order to establish and maintain satisfactory academic progress, the student must record a grade of at least Satisfactory (SA) in all courses.

Quantitative Requirements

A student must successfully complete at least 66% of the cumulative credit hours attempted. Grades of unsatisfactory, incomplete and withdrawal will not count as credits earned, but will be included in the credit hours attempted.

In addition, all requirements for degree completion must be completed within the following timeframe, excluding any time for an approved leave of absence.

- Medical Degree – 6 years
- Medical/MS Health Care Ethics, Medical/MS Clinical Translational Science or Medical/Master’s Business – 7 years
- Medical/Ph.D – 10 years

Transfer Students

For transfer students, the total years of degree completion includes time spent at the previous institution to the extent credit is transferred and applied toward the degree. Transfer credits are accepted as both attempted and completed hours.

Appeal for Financial Aid Probation

A student who fails to meet one or both of the standards for Satisfactory Academic Progress is not eligible to receive federal financial aid. Students may appeal to the Director of Student Financial Assistance for a financial aid probation period after receiving an approved plan of action from the School of Medicine’s Advancement Committee. The appeal must be in writing and include information regarding why the student failed to make satisfactory academic progress, such as injury or illness of the student, death of a relative or other special circumstances. The appeal must also include what has changed in the student’s situation and the Advancement Committee’s approved plan of action that would allow the student to demonstrate satisfactory academic progress at the next evaluation. Students will be notified in writing of the results of the appeal.

Reinstatement Federal Financial Aid Eligibility

A student may re-establish eligibility to receive federal financial aid by meeting the qualitative and quantitative requirements for satisfactory academic progress listed above.

Government Grants and Scholarships

National Health Service Corps Scholarship

The commitment of a National Health Service Corps Scholarship is to provide health care in areas that are under-served or have a shortage of health-care professionals. This program gives financial support to eligible students of medicine and osteopathy and requires, in return, a commitment to serve in shortage areas.
Recipients of this scholarship receive benefits to pay tuition, fees, books, and supplies, and other educational expenses in addition to a monthly stipend. For each year of scholarship support a recipient is required to serve a year of full-time clinical practice in a federally designated physician shortage area. Two years is the minimum service. Students wishing additional information on this program may visit the Health Resources and Services Administration (HRSA) website at nhsc.hrsa.gov (http://nhsc.hrsa.gov).

**Army, Navy, and Air Force Scholarships**

Students should contact the nearest armed services recruiting office to request additional information on these particular scholarships. The terms of the scholarships are very similar to the National Health Service Corps Scholarship Program.

**Loan Programs**

**Primary Care Loan Program (PCL)**

Medical students planning to enter a Primary Health Care career are eligible to apply for this loan by providing parental information on the FAFSA regardless of dependency status. For purposes of the PCL program, “Primary Health Care” is defined as family practice, general internal medicine, general pediatrics, preventive medicine, geriatrics or sports medicine.

The yearly award varies based on your eligibility, available funds, and number of applicants. No interest accrues on this loan while students are enrolled in school. Repayment of principal and interest begins 12 months after graduation. Deferments for residency programs may delay repayment for the entire residency program. Your interest rate will be fixed at five percent over the life of the loan.

**The following conditions must be met to receive this loan and maintain the favorable interest rates:**

1. Be a full-time student,
2. Enter and complete a residency training program in primary health care not later than four years after the date on which the student graduates, and
3. Practice primary health care for 10 years or until the loan is repaid in full, whichever occurs first.

Failure to meet the above requirements will result in the following variations to the terms of the PCL program:

1. This loan will accrue interest continuously at an interest rate of seven (7) percent per year beginning on the date of noncompliance, and ending when the loan is paid in full and
2. The Borrower is not eligible for deferment provisions outlined in the Promissory Note.

Interest shall not accrue on the loan and installments need not be paid during the following periods:

1. while serving on active duty as a member of a uniformed service of the United States for up to three years;
2. while serving as a volunteer under the Peace Corps Act for up to three years; and
3. up to four years while pursuing advanced professional training, including internships and residencies.

**Federal Student Loan Programs**

All students must file a Free Application for Federal Student Aid (FAFSA) before any federal financial aid can be offered. Creighton University participates in the Federal Direct Student Loan Programs, which means students are borrowing loan funds from the federal government. These loans include the Federal Direct Unsubsidized Loan and the Federal Direct Grad PLUS Loan.

**Federal Unsubsidized Stafford Student Loan**

The Federal Direct Unsubsidized Student Loan is a non-need based loan. As of July 1, 2015, the unsubsidized loan has a fixed interest rate of 5.84% and begins to accrue interest to the borrower when the funds are disbursed. Students have the option of making interest payments during school or can choose to have the interest capitalized at repayment.

The annual amount that a student may borrow varies from $40,500 to $47,167 depending on the amount of other aid received and the length of the academic year. Professional medical students may borrow up to an aggregate maximum of $224,000 from the Federal Direct subsidized and unsubsidized loans including any undergraduate loans. There is a 1.073% origination fee on all Unsubsidized Stafford Loans. Information regarding deferment and forbearance options are included on the Master Promissory Note.

**Federal Grad PLUS Loan**

This federal loan program allows graduate and professional students to borrow the cost of education less other financial aid. A good credit history is required to borrow Federal Direct Grad PLUS funds. As of July 1, 2015, these loans have a fixed interest rate of 6.84%. There is a 4.292% origination fee on all Federal Direct Grad PLUS loans. Repayment begins six months after the student graduates, leaves school or drops below half-time enrollment. Information regarding deferment and forbearance options are included on the Master Promissory Note.

Note: Instructions for completing the Federal Direct Master Promissory Notes (MPN) for both loan types and on-line entrance counseling will be included with the award notification letter.

The Curriculum

The educational program is divided into four components. Components I and II are the foundation of the educational program and present basic science information in a clinically relevant context. Initial discipline-based courses are followed by a series of organ system-based courses. Component III consists of core clerkships emphasizing basic medical principles, primary care, and preventive medicine. Component IV provides students with additional responsibilities for patient care including critical care medicine, and elective opportunities. Clinical experience is a prominent part of the curriculum in all components, beginning with physical diagnosis instruction in the first year and continuing with participation in longitudinal primary care clinic in the second year. The curriculum integrates ethical and societal issues into all four components.

Component I - First Year

The goal of the first year is to provide a strong foundation in basic biomedical science to prepare students for detailed basic science content that occurs within the clinically oriented system courses that begin in the second year. Students are also introduced to ethical and behavioral science principles in Ethical and Legal Topics in Clinical Medicine and Behavioral Medicine I and learn the fundamentals of physical assessment and interviewing techniques. An additional (non-curricular) requirement of advancement to Component II is the completion of certification in basic cardiac life support. Following are the Component I courses:

Component II - Second Year

In the second year, students continue learning basic science along with clinical medicine. The second year is organized as a series of organ system-based courses, each presented by a multidisciplinary team of faculty members. Within each course, normal physiology and histology of the system are presented along with the pathology of common diseases, and the medical and pharmacologic
approaches to diagnosis and treatment. Each course uses a variety of formats, including case presentations, lectures, small group discussions, laboratory sessions, computer-aided instruction, and independent study. In addition, in the Applied Clinical Skills course, students use small group discussions to learn clinical reasoning and are assigned to a clinic for two half days per month to reinforce history and physical examination skills. Following are the Component II courses:

IDC 201  Cardiovascular System  4
IDC 203  Respiratory System  3
IDC 205  Renal-Urinary System  3
IDC 207  Hematology-Oncology  3
IDC 209  Gastrointestinal System  3
IDC 211  Musculoskeletal-Integument System  2
IDC 216  Endocrine-Reproductive System  4
IDC 222  Physician Lifestyle Management  1
IDC 233  Infectious Diseases  4
IDC 243  Behavioral Medicine II  3
IDC 244  Behavioral Medicine III  3
IDC 279  Case Studies in Medicine  2
IDC 290  Applied Clinical Skills  3

Component III - Third Year

The third year comprises the core clinical clerkships. Students are scheduled into one of six groups that rotate through clerkships in:

IDC 301  Ambulatory Primary Care Clerkship  8
MED 301  Inpatient Medicine Clerkship  8
PBS 301  Psychiatry Clerkship  8
SUR 301  Surgery Clerkship  8
PDT 301  Pediatrics Clerkship  8
OBG 301  Obstetrics and Gynecology Clerkship  8

There are two additional courses that run throughout the third year:

DCM 301  Dimensions of Clinical Medicine  3
IDC 342  Physician Lifestyle Management  1

M3s will participate in the following education sessions as part of the Physician Lifestyle Management course:

• Success Strategies for Rotations (Emotional Intelligence)
• Meet the Specialists Program
• Navigating the Senior Year
• Residency Application Development
• Preparing for the Match
• Participation in Practice Interview Session
• Vital Signs Mentoring Program
• Careers in Medicine Sessions
• Financial Advising

Students must also satisfy the following requirements:

• Attend all Junior orientation sessions
• Be certified in Advanced Cardiac Life Support
• Complete the M3 Clinical Skills Exam in the Fall and Spring Semesters. Those students who do not pass the examination must take schedule an individual review before being eligible to take the USMLE Step 2 CS.

Component IV - Fourth Year

The fourth year prepares students for residency and provides a chance to explore their own interests in specialized areas of medical practice. In the fourth year, each student selects at least 36 weeks of courses which must include:

• 1 surgical selective (4 weeks)
• 1 critical care selective (4 weeks)
• 1 primary care sub-internship selective or 2nd critical care selective (4 weeks)
• an additional 24 weeks of clinical electives with no more than 8 weeks of non-clinical electives

During the fourth year a student must take and post a score for Step 2CK and Step 2CS of the USMLE prior to graduation.

A complete listing of available Component IV Elective/Selective Courses offered is provided to M4 students during the Spring semester prior to Component IV. Elective/Selective courses are offered in the following subject areas:

Interdepartmental Courses (IDC)

Anesthesiology (ANE)

Biomedical Sciences (BMS)

Family Medicine (FAP)

Administration and Academic Policies

The University reserves the right to make changes at any time in the requirements for admission, in the curriculum of the School, or in any regulations governing the School. The University reserves the right to refuse further registration to any student believed to be incompetent in scholarship or otherwise unfit to be awarded the degree of Doctor of Medicine. Such judgement to deny further registration to a student is the responsibility of the Dean who acts on the advice of the faculty of the School of Medicine.

Academic Honesty

In keeping with its mission, Creighton University seeks to prepare its students to be knowledgeable, forthright, and honest. It expects and requires academic honesty from all members of the university community. Academic honesty includes adherence to guidelines established by the university, its colleges and schools and their faculties, its libraries, and the computer center.

Academic or academic-related misconduct includes, but is not limited to:

- unauthorized collaboration or use of external information during examinations;
- plagiarizing or representing another’s ideas as one’s own;
- furnishing false academic information to the university;
- falsely obtaining, distributing, using or receiving test materials;
- developing or using study guides for course examinations or National Board of Medical Examiners’ examinations that are known to be based on memorized examination questions;
- altering or falsifying academic records;
- falsifying clinical reports or otherwise endangering the well-being of patients involved in the teaching process;
- misusing academic resources; defacing or tampering with library materials;
- obtaining or gaining unauthorized access to examinations or academic research material;
- soliciting or offering unauthorized academic information or materials;
- improperly altering or inducing another to improperly alter any academic record;
- or engaging in any conduct that is intended or reasonably likely to confer upon one’s self or another an unfair advantage or unfair benefit respecting an academic matter.

Students alleged to have engaged in the above behaviors will be subject to reporting to the Associate Dean for Student Affairs and will be subject to the policies and procedures designated for allegations of unprofessional behavior.

Further information regarding academic or academic-related misconduct, and disciplinary procedures and sanctions regarding such misconduct, may be obtained by consulting the current edition of the Creighton University Student Handbook and the School of Medicine Student Handbook. Students are advised that expulsion from the University is one of the sanctions that may be imposed for academic or academic-related misconduct.
The University reserves the right to modify, deviate from, or make exceptions to the School of Medicine Student Handbook at any time, and to apply any such modification, or make any such deviation or exception applicable to any student without regard to date of admission application or enrollment.

**Advancement**

Students are advanced to the next component if they achieve satisfactory performance measured by both Academic and Professional Standards. Promotion to the next component or graduation requires a record of at least Satisfactory academic performance, with no failure outstanding in any course, clerkship or elective, and a record of Professional Conduct that indicates suitability to assume the responsibilities of the medical profession. Advancement to Component III also requires a passing score on the USMLE Step 1 examination.

**Americans with Disabilities Act**

Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 address the provision of services and accommodations for qualified individuals with disabilities. Services for students with disabilities are provided to qualified students to ensure equal access to educational opportunities, programs, and activities in the most integrated setting possible. Students requesting accommodations must take the following steps:

1. Submit to the School of Medicine Office of Student Affairs a request for accommodation and supporting current documentation from a licensed physician, psychiatrist, or psychologist.
2. Submit this documentation at least 5 weeks in advance of a course, workshop, program or activity. The student may be required by the School of Medicine to provide additional evaluation materials.

Requests for accommodations are then reviewed by the Medical Education Management Team. The Coordinator of Student Support Services for Creighton University may be consulted by the MEMT.

Any student requesting accommodations must submit medical or other diagnostic documentation of the disability and any limitations, and may be required to participate in such additional evaluation of limitations as may appropriately be required by Creighton University or other agencies prior to receiving requested accommodations. The University reserves the right to provide services only to students who complete and provide written results of evaluations and service recommendations to appropriate University personnel. For more information, contact the Associate Dean for Student Affairs at 402.280.2905 or the Coordinator of Services for Student Support Services at 402.280.2749.

**Attendance**

**Mandatory Activities**

Regular attendance at all curricular activities is expected. Attendance at certain designated activities is **MANDATORY**. These include:

- orientation and general class meetings organized by the Office of Student Affairs, Office of Medical Education, or Departments
- examinations and quizzes
• small group sessions
• clinically related activities, including but not limited to Interviewing and Physical Exam sessions and Neuroscience Grand Rounds in Component I, longitudinal clinic in Component II, and clinical rotations in Components III and IV
• sessions of the dimensions of Clinical Medicine course in Component III
• activities at the Clinical Education and Simulation Center
• any other activity designated as mandatory.

Absence from a Mandatory Activity

A student who will be absent from a mandatory activity must adhere to the absence request policy for his/her component.

Components I

The student must first complete an Absence/Exception Request Form, which is available from the M1 Bulletin Board on BlueLine, from the M1 Curriculum Coordinator, or from the Office of Student Affairs website. The completed request form should first be submitted to the Component Director who will determine whether the absence can be excused and, if appropriate, the alternative learning experience that will be offered to the student. The M1 Component Director may request that the student also get the approval of the Course Director. After the Component Director informs the student of the decision, the Request Form is submitted to the Associate Dean for Student Affairs for placement in the student’s academic file.

Component II

An excused absence during the M2 year can be granted for:

• Illness, with a medical provider’s written excuse if more than one day
• The funeral of an immediate family member (father, mother, spouse, son, daughter, brother, sister, grandparents, grandchildren, or in-laws of the same degree)
• Election duty/jury duty
• A presentation or official delegate status at a regional, national, or international medical conference or medical association meeting. The conference schedule should be submitted along with a request to attend.

To request an excused absence, the student must complete an Absence Request Form, available from the Office of Student Affairs website or from the M2 Bulletin Board on Blueline. The completed request form should be submitted to the Course Director, who may arrange an alternative learning experience for the student. Once signed by the Course Director, the Request Form is submitted to the M2 Curriculum Coordinator. The Curriculum Coordinator will send the signed form to the Associate Dean for Student Affairs for placement in the student’s academic file.

In addition, each M2 student will be allowed one personal wellness day absence from mandatory academic activities during the M2 year. The student must submit a completed Absence Request Form to the M2 Curriculum Coordinator at least 7 calendar days before the requested absence. The Curriculum Coordinator will submit the Absence Request Form to the Associate Dean for Student Affairs for placement in the student’s academic file. An M2 student cannot use a personal wellness day for absence from examinations, including Clinical Skills Exams or Communication FOCl. No more than one wellness day can be used per course. No alternative learning experience will be available
for M2 wellness days and a student is not permitted to attend small group sessions with another group if he or she is absent from his/her own small group meeting due to a personal wellness day.

Component III

Attendance at certain designated activities in clinical rotations and sessions of the Dimensions of Clinical Medicine course in Component III are expected. M3 students will be allowed two days off from their academic activities in Component III. However, before the requested absence can be taken, the student must first complete an Absence Request Form, which is available from the Office of Student Affairs website or on BlueLine, and submit it to the Clerkship Director at least 14 calendar days before the requested leave date. Upon initial approval by the Clerkship Director, the student must submit the request to the Component Director for approval. The Component Director will notify the student of the request’s approval and will submit the Absence Request Form to the Associate Dean for Student Affairs for placement in the student’s academic file. The M3 student cannot be absent for:

- M3 Orientation
- Clinical Skills Day
- Clerkship Orientation Day(s)
- NBME Subject Examinations (Shelf Exams)
- Clerkship OSCE/FOCI
- Clinical Skills Exam-3 (CSE-3)

There will be no additional time off during the M3 year except for the following:

- illness with a medical provider’s written excuse if more than one day
- funeral for an immediate family member (immediate family members are defined as father, mother, spouse, son, daughter, brother, sister, grandparents, grandchildren, or in-laws of the same degree)
- election duty/jury duty
- presentations or delegate status at a regional, national or international medical conference or medical association

Clinical time off because of the above exceptions will need to be made up in a manner acceptable to the component director; however, personal days off do not need to be made up.

Students may not attend a regional or national conference without qualifying for the above criteria. Students may attend a local specialty conference at the invitation of the clerkship director as long as the conference pertains directly to the subject matter of the currently enrolled clerkship.

Students may not take personal days off for days scheduled for call unless arrangements are made with the clerkship director to arrange for suitable call coverage as not to make the absence an undue hardship to fellow students on the clerkship or to the department.

Students are responsible for ALL missed work regardless of the reason for the absence. Absence without permission may result in failure of the clerkship as well as referral to the Advancement Committee for unprofessional behavior.
Component IV

M4 students will be allowed up to two days off from their academic activities for each four-week elective and up to one day off for each two-week elective. An exception is made for those clinical electives taken during the traditional interviewing months of October, November, December, and January during which time students are allowed up to five days off from their academic activities for each four-week elective and up to 2.5 days off for each standard two-week elective. Students are not allowed to be absent from the Creighton University School of Medicine Emergency Medicine (MED 471). Students are not allowed to take more than five days off total during an M4 clinical elective, including dates for taking the USMLE Step 2 CS examination. Before the requested absence can be taken, the student must first complete an Absence Request Form, which is available from the Office of Student Affairs website or on Blueline, and submit it to the Elective Director at least 14 calendar days before the requested leave date. Upon initial approval by the Elective Director, the student must submit the request to the Component Director for approval. The Component Director will notify the student of the request’s approval and will submit the Absence Request Form to the Associate Dean for Student Affairs for placement in the student’s academic file. A student must be notified by the Component Director of the approval prior to the absence. Students are encouraged to use their interviewing month and non-clinical electives during the traditional interviewing months in order to have adequate time for interviewing.

M4 student absences will be monitored by the Clinical Programs Coordinator in the Office of Student Affairs. Students who are absent for more days than allowed within an elective are responsible for ALL missed work regardless of the reason for the absence. Absence without permission may result in failure of the clerkship as well as referral to the Advancement Committee for unprofessional behavior.

Rescheduling of an examination requires prior arrangements with the Component Director or the Associate Dean for Student Affairs. Excessive requests will be denied.

Students in all components are responsible for ALL missed work, regardless of the reason for the absence. Absence without permission may result in failure of the course or clerkship as well as referral to the Advancement Committee for unprofessional behavior.

Absence from a Mandatory Activity Due to Illness

In the case of acute illness, trauma, or an emergency in which advance completion of a Student Absence Request Form is not possible, students must phone or email the Curriculum Coordinator or Component Director as soon as practical. In components III and IV, students must also ensure that the attending physician is aware of their illness.

A student who misses an activity due to an illness must complete a Student Absence/Request Form upon his/her return, and present a doctor’s note that explains the absence. If the illness results in an absence of two or more days or if requested by the Component Director, the student must present a medical provider's note from the provider seeing the student for the health problem that verifies the reason for the absence. Failure to verify the illness may result in failure of the course or clerkship as well as referral to the Advancement Committee for unprofessional behavior.

The student is responsible for ALL missed work, regardless of the reason for the absence. The course director or attending physician will determine the arrangements (assignment or alternative activity) that the student must complete to make up the missed activity. If an examination has been
Confidentiality of Student Records

missed, the student will be expected to take a make-up exam at the earliest possible time following his/her return.

Absence Associated with USMLE Step 2 CS Administration

A student is allowed two days off from an M4 elective in order to complete the USMLE Step 2 CS examination. Prior to any absence for this examination, the student must complete a Student Absence Request Form, available from the curriculum coordinator or from the Office of Student Affairs website and receive approval for the time off. Students are discouraged from taking time off from two-week clinical electives. Students are not allowed to take more than five days off total during an M4 clinical elective, including dates for interviewing.

Inclement Weather

The decision to close or delay the opening of Creighton University due to severe weather or other emergency situations rests with the President. Independent decisions may not be made at the college, school, or department level.

1. Closing/Delayed Opening. During severe weather (e.g., winter storms), the decision to close or delay opening the University will be made as early as possible, but not later than 6:00 am. The Public Relations Department will relay applicable information to the local news media.

In the event of a closing or delay, Creighton University School of Medical Students in Omaha will not report to their clinical activity (including non-Creighton facilities) while the University is closed. Students are expected to resume their clinical activities once the University has reopened. Students are advised to listen to newscasts on mornings when severe weather conditions may force the closing or delayed opening of the University. Students may also check the University Weather Hotline, (402) 280-5800, or check email communications or CU ALERT TEXT messages to determine if the clinics are closing or delaying their opening.

2. Curtailing Operations. If severe weather or an emergency situation develops during the school or clinic day and creates conditions that warrant early closing of the University, Public Safety or the President’s Office will notify the Vice Presidents of the decision, who will then notify departments and schools within their respective areas of responsibility. Students will be notified as soon as possible about the closure of Creighton University and are to leave clinical activities at the time that Creighton University closes. If an exam is postponed by a University closing, students will be notified by email regarding the new date/time for the exam.

3. Weather Hot Line. Medical students can access the Creighton University Weather Hot Line (402)280-5800 to determine the status of University operations. The recording will indicate whether the University is operating under normal conditions, closed, a delayed start or curtailment of operations.

Confidentiality of Student Records

Creighton University’s policy relating to the confidentiality and privacy of student records is in keeping with the Family Educational Rights and Privacy Act (FERPA). Information about students or former students will not be released without the consent of the student other than in the exceptions stated in
the Federal Act. FERPA affords students certain rights with respect to their educational records. They are:

1. **The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.**
   Students should submit to the Registrar, Dean, Department Chair, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for, and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. **The right to request the amendment of the student’s education records that the student believes is inaccurate or misleading.**
   Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identifying the part of the record they want changed and specify why it is inaccurate or misleading.
   If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosures without consent.**
   One exception that permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including Public Safety personnel and Student Health staff); a person or company with whom the University has contracted (such as an attorney, auditor, collection agency, and the National Student Clearinghouse); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.
   Generally, schools must have written permission from the student in order to release any information from a student’s education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions:
   - School officials with legitimate educational interest
   - Other schools to which a student is requesting transfer or enrollment
   - Specified officials for audit or evaluation purposes
   - Appropriate parties in connection with financial aid to a student
   - Organizations conducting certain studies for or on behalf of the school
   - Accrediting organizations
   - To comply with a judicial order or lawfully issued subpoena
   - Appropriate officials in cases of health and safety emergencies
   FERPA permits disclosure of educational record information to a student’s parent or guardian if the student is their dependent for federal tax purposes. To rely on the exception, the University must verify a student’s dependent status by asking the student for confirmation or by asking the parent/guardian to provide a copy of the portion of their tax return showing they claimed the student as a dependent. Students may grant their parents or another third party access to their academic records by following the procedure on their N.E.S.T. account.
FERPA also allows the University to disclose directory information without the written consent of the student. Directory information is information contained in an education record of a student which generally would not be considered harmful or an invasion of privacy if disclosed. Directory information includes the student’s full name, the fact that the student is or has been enrolled full-time/part-time status, local and permanent address(es), e-mail address, telephone number(s), date and place of birth, dates of attendance, division (school or college), class, major field(s) of study and/or curriculum, degrees and awards received, participation in officially recognized activities and sports, weight and height of members of athletic teams, photograph, and previous educational agency or institution attended by the student.

A currently enrolled student may request any or all directory information not be released on their N.E.S.T. account and requesting their information be hidden. Such submission of this request shall be honored for the remainder of the term in which the request is filed, except that such restriction shall not apply to directory information already published or in the process of being published.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Creighton University to comply with requirements of FERPA.

The name and address of the office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Full-Time Students

All students must be enrolled full time unless the Associate Dean for Student Affairs has approved other arrangements. Registration for each session must be completed on the days designated by the Associate Dean for Student Affairs. Students who take 12 or more semester hours of credit during a semester are considered full-time students.

Grading System and Policy

Course Directors (including Preceptors) or courses, clerkships, and electives in the School of Medicine are the instructors of record and assign grades at the end of each course or clerkship/elective. Instructors evaluate students in a manner that is fair, unbiased, and consistent with the
Grading System and Policy

criteria and mechanisms announced at the beginning of the course or clerkship. Final course grades are Honors (SH), Satisfactory (SA), or Unsatisfactory (UN):

1. Honors (SH)
   The student performs exceptionally well as defined by the criteria for honors in the course syllabus.

2. Satisfactory (SA)
   The student completes all course requirements in a satisfactory manner as defined by the course syllabus.

3. Unsatisfactory (UN)
   The student fails to meet the minimum requirements for a course, clerkship, or elective as defined in the syllabus or meets one or more of the following criteria.
   a. In Component I or II, attains an overall course average less than 65%, or attains an overall course average below 70% AND has previously received a grade of UN and/or a temporary grade of I (i.e., the student had a final course average between 65-70%) in two or more courses in that Component.
   b. In Component III, fails an NBME Subject Examination from a clerkship twice, or fails an NBME Subject Examination AND has previously received a grade of UN and/or a temporary grade of I in two or more Component III clerkships
   c. In Component III or IV, fails the clinical component of a clerkship or elective, or
   d. fails to complete the requirements of a course within one year, or

4. Incomplete (I)*
   A student may temporarily receive a grade of Incomplete (I) if he/she:
   a. has a final course average between 65-70% and is eligible to take a make-up examination before receiving a final course grade in Component I or II. A student is eligible to take make-up examinations in a maximum of two courses per academic year, but may not take a make-up exam if he/she has previously received a UN and/or I in any two previous courses during the Component. The Advancement Committee determines if a student is eligible to take a make-up exam.
   b. has failed a Component III NBME Subject Examination once and is eligible to take a second NBME Subject Examination before receiving a final course grade. A student is eligible to take a make-up examination in a maximum of two clerkships. A student failing an NBME Subject Examination in a third clerkship will receive an Unsatisfactory grade for that clerkship and will be referred to the Advancement Committee for action.
   c. has been granted an extension to complete course requirements (e.g., OSCE/CSE, H&Ps, written assignments, etc.)

The grade of Incomplete (I) is changed to Satisfactory (SA) when the student satisfactorily completes all required work for the course, clerkship, or elective within the time granted for the extension. If the student has not completed the required work in a satisfactory manner within the time granted (in no case later than one year after the completion of the original course), the Incomplete (I) is changed to Unsatisfactory (UN).

5. Withdrawal (W)
   A grade of Withdrawal (W) will be recorded and no credit received when a student officially withdraws from a course while in good standing following consultation with the Associate Dean for Student Affairs.
Graduation

Each student must file a formal application for degree (completed online through the N.E.S.T.) with the Registrar by the following deadlines:

- Degree completion at end of Spring semester: February 15
- Degree completion at end of Summer: March 15
  (or June 15 if not participating in Commencement ceremony)
- Degree completion at end of Fall semester: October 15
  (or previous March 15 if participating in Commencement ceremony prior to degree completion)

Late applicants are charged a late fee.

Annual University Commencement ceremonies are held in May. Students who complete their degrees in the Spring Semester are expected to be present at Commencement to receive their degrees. Students who complete their degree programs in the Fall Semester may attend Commencement in May following completion or in the preceding May if approved by their Dean. Students who complete their degree requirements during the Summer are encouraged to attend Commencement the preceding May (if approved by their Dean) or may attend the May Commencement following completion. Diplomas of August and December graduates will be mailed upon confirmation of the completion of all degree requirements by the respective Dean.

NOTE: A student may participate in only one Commencement ceremony for each degree granted.

The respective Deans of the Schools and Colleges of the University have the responsibility for approving candidates for graduation.

Those applicants who do not complete all degree requirements or who are not approved must complete another application by the published deadline in order for a degree to be conferred at the end of the next semester.

Graduation Honors

Students graduating from the School of Medicine with outstanding performance may be eligible for summa cum laude, magna cum laude, or cum laude status.

- **Summa Cum Laude**
  Students graduating with greater than or equal to 75% of course work, clerkship, and electives with Honors (SH).
- **Magna Cum Laude**
  Students graduating with greater than or equal to 60% of course work, clerkship, and electives with Honors (SH).
- **Cum Laude**
  Students graduating with greater than or equal to 50% of course work, clerkship, and electives with Honors (SH).
Professional Behavior

The regulations set forth regarding professional behavior are meant to assure that students are not only competent to undertake a career in medicine, but also that they possess honesty, ethical behavior and integrity, and a responsible attitude toward patients, other health care workers, faculty, and fellow students. The major emphasis of the policy on professional behavior is the education and development of the student and the protection of the rights of others. Unprofessional behavior on the student's part may result in action up to and including dismissal from the School of Medicine. For more detailed information regarding professional standards, regulations, and disciplinary procedures, the student is referred to the School of Medicine Student Handbook.

Registration

Registration for the School of Medicine must be completed on the days designated by the office of the Associate Dean for Student Affairs for each semester.

Requirements for the Degree of Doctor of Medicine

To receive the degree of Doctor of Medicine (M.D.), a student must have demonstrated the knowledge, skills, maturity, integrity, and professional behaviors necessary to undertake the responsibilities of a physician. The student must have passed all courses, clerkships, and electives in a course of study that meets the requirements of the School of Medicine, pass Step 1 of the United States Medical Licensing Examination, pass the Junior Clinical Competency Examination, take Step 2 CK and CS of the United States Medical Licensing Examination and post a score on each, and pass Advanced Cardiac Life Support.

Student Employment

The curriculum of the School of Medicine requires the full time and energy of all medical students. Since it is believed that outside work interferes greatly with medical education, such work is not allowed. Any exception must be approved by the Associate Dean of Student Affairs. Summer employment is permitted following the M1 year.

Technical Standards

Creighton University is committed to admitting “qualified students...without regard to race, color, age, national or ethnic origin, disability, sex, marital status, or religion.” A qualified applicant is a person who demonstrates superior intelligence and other skills to complete a very rigorous curriculum and to meet certain technical standards for physicians and medical students. The M.D. degree attests to the mastery of general knowledge in all fields requisite for the practice of medicine. The awarding of the M.D. degree signifies that the holder is a person who is prepared for the practice of medicine through entry into postgraduate training programs. Thus, the graduate of Creighton University School of Medicine must possess the knowledge and skills to function in a wide variety of clinical settings and to render a wide spectrum of patient care.
In order to acquire the necessary knowledge and skills, medical students must possess certain sensory and motor functions to permit them to carry out activities described below. Medical students must be able to integrate all information received by whatever sensory function is employed, and to do so consistently, rapidly, and accurately. Furthermore, medical students must be able to learn, integrate, analyze, and synthesize data.

Medical students must demonstrate the ability to tolerate physically challenging workloads and to function effectively under stress. Attending to the needs of patients is at the heart of becoming a physician. Academic and clinical responsibilities of medical students may require their presence during daytime and nighttime hours, any day of the year.

Candidates for the M.D. degree must have a variety of abilities and skills including: observation, communication, motor, intellectual-conceptual, integrative, and quantitative abilities, and attitudinal, behavioral, interpersonal, and emotional skills.

Technological accommodation is available to assist in certain cases of disability and may be permitted in certain areas. However, under all circumstances, a candidate for the M.D. degree should be able to perform in a reasonably independent manner. For example, the use of a third party means that a candidate’s judgment must be mediated by another person’s (the third party) powers of selection and observation. Therefore the use of a third party to assist a candidate or student in meeting the technical standards for admission or graduation is not permitted.

**Observation**

Candidates and students must have sufficient vision to be able to observe demonstrations, experiments, and laboratory exercises in the basic sciences. They must be able to observe a patient accurately at a distance and close at hand. Medical students must be capable of viewing and interpreting diagnostic modalities and to detect and interpret non-verbal communication from the patient.

**Communication**

Candidates and students must be able to communicate verbally with patients and colleagues. They should be able to hear the history of a patient and respond to the patient verbally. Candidates and students must be able to read and write in standard format and must be able to interact with computers in rendering patient care. Candidates and students must be proficient in English in order to be able to prepare a legible patient workup and present the workup orally in a focused manner to other health care professionals. Candidates and students must be able to communicate effectively with patients and family members and elicit a clinical history.

**Motor**

Candidates and students must have sufficient motor function so that they are able to execute movements reasonably required to take a history and to perform a physical examination, including the ability to inspect various physical signs and recognize normal versus abnormal findings. They must be able to elicit information from patients using the techniques of palpation, auscultation, percussion, and other diagnostic maneuvers. They must be able to execute motor movements reasonably required to provide general care and emergency treatment to patients in accordance with currently acceptable medical practice. Candidates and students must be able to utilize gross and fine manual
palpation, touch, vibratory sensation, and temperature sensation in describing and evaluating various body parts.

**Intellectual-Conceptual, Integrative and Quantitative Abilities**

Candidates and students must possess a range of skills that allows mastery of the complex body of knowledge that comprises a medical education. Candidates and students must be able to recall large amounts of information, perform scientific measurements and calculations, and understand and cognitively manipulate three-dimensional models. Candidates and students must be able to learn effectively through a variety of modalities including but not limited to: classroom instruction, small group discussion, individual study of materials, preparation and presentation of written and oral reports, and use of computer-based technology. Candidates and students must exhibit reasoning abilities sufficient to analyze and synthesize information from a wide variety of sources. The ultimate goal of the student will be to render patient care by solving difficult problems and making diagnostic and therapeutic decisions in a timely fashion.

**Attitudinal, Behavioral, Interpersonal, and Emotional Attributes**

Because the medical profession is governed by generally accepted ethical principles and by state and federal laws, candidates and students must have the capacity to learn and understand these values and laws and to perform within their guidelines. Medical students must be able to relate to patients as well as staff and colleagues with honesty, integrity, non-discrimination, self-sacrifice, and dedication. Medical students must be able to develop mature, sensitive, and effective relationships with patients. Medical students must be able to identify personal reactions and responses, recognize multiple points of view, and integrate these appropriately into clinical decision-making. Medical students must be able to communicate and care for, in a non-judgmental way, persons whose culture, sexual orientation, or spiritual beliefs are different from their own. Candidates and students must be able to examine the entire patient, male or female, regardless of the social, cultural, or religious beliefs of the candidate or student.

Candidates and students must be of sufficient emotional and mental health to utilize fully their intellectual abilities, to exercise good judgment, to complete patient care responsibilities promptly, and to relate to patients, families, and colleagues with courtesy, compassion, maturity, and respect. Candidates and students must be able to modify their behavior in response to constructive criticism. They must be capable of being non-judgmental when caring for a patient and not let their own personal attitudes, perceptions, and stereotypes compromise care of the patient.

In evaluating applicants for admission and in preparing candidates for the M.D. degree, it is essential that the integrity of the curriculum be maintained, that those elements deemed necessary for the education of a physician be preserved, and that the health and safety of patients be maintained. While reasonable accommodation can be made for certain disabilities on the part of the student or candidate, those candidates and students who are disabled will be held to the same fundamental standards as their non-disabled peers.

The Creighton University School of Medicine will consider for admission any candidate who demonstrates the ability to perform the skills and abilities specified in these technical standards with or without reasonable accommodation consistent with the Americans with Disabilities Act. Candidates for the M.D. degree will be assessed on a regular basis according to the Academic Standards.
and the Technical Standards of the School of Medicine on their abilities to meet the requirements of the curriculum. Students interested in requesting accommodation(s) are encouraged to follow the procedures outlined in Part 4 (Americans with Disabilities Act: Information for Students) of the Student Handbook.

Transcripts

A copy of a student’s academic record is called a transcript and is issued by the University Registrar upon signed request, or its equivalent, of the student. Transcript request information is available at the Registrar’s Office or on the Registrar’s website (http://creighton.edu/registrar/transcripts). Copies are not made of transcripts on file from other institutions; any additional copy of these must be requested by the student direct from the original issuing institution.

Unit of Instruction/Credit Hour Policy

The semester credit hour is the unit of instruction at Creighton University.

One credit hour is constituted by a minimum of one hour of classroom or direct instruction plus a minimum of two hours of out-of-class student work each week for a semester (or its equivalent). Utilizing the Carnegie Unit, “one hour” of instruction or class work equals 50 minutes; a semester is defined as not less than 15 weeks.

An equivalent amount of student work (minimum three hours per week for a semester of combined direct instruction and out-of-class student work) must be represented for a credit hour in other academic activities such as laboratories, internships, practica, studio work and other academic work.

Contact the School or College Dean’s Office or the Registrar for Creighton’s full Credit Hour Policy.

Information regarding the School of Medicine Credit Hour Policy may be obtained from the Office of Medical Education.
Dual Degree Programs

The School of Medicine offers dual degree programs for students earning a Doctor of Medicine (M.D.) degree along with a:

- Ph.D. (p. 84)
- M.S., Health Care Ethics (p. 84)
- M.S., Clinical and Translational Science (http://catalog.creighton.edu/graduate/graduate-programs-courses/clinical-translational/clinical-translational-science-md-ms)
- M.B.A. (p. 85)

M.D./Ph.D. Dual Degree Program

The MD/PhD program’s objective is to train physician-scientists to be an integral component of the healthcare system, now and into the future. Training such individuals is as unique as the expectations for successful trainees:

- Provide excellent patient care.
- Lead discovery in disease focused biomedical research.
- Promote translational research with accelerated progression of discoveries to the bed-side.
- Be a leader in biomedical research and healthcare delivery.

Please review the following sources for a complete explanation of the MD/PhD program, curriculum, and application process.

M.D./M.S. in Health Care Ethics Dual Degree Program

The Creighton University School of Medicine and the Graduate School offer a coordinated dual degree program leading to the separate conferral of both the Medical Doctor and the Master of Science in Health Care Ethics degrees. The program is structured so that students will receive credit toward the MS degree for the IDC 135 Ethical and Legal Topics in Clinical Medicine course, complete one ethics course the summer between the M1 and M2 year, and then take a full year to focus on the MSHCE degree between the M2 and M3 years. Students will complete the MS degree during the M4 year by taking the MHE 609 Capstone course, which will also fulfill two M4 elective requirements.
Admission Requirements

Admission to the MD/MS in Health Care Ethics requires acceptance into the medical degree program at Creighton University and completion of an entrance questionnaire and essay.

Applicants must submit the following documents:

Application: a completed application form.

Essay: Using 500 words or less per question, please respond to the following:

- List three “big” questions in contemporary health care ethics then choose one of the questions to answer or write a commentary on why you think this particular issue is so important.
- Explain how successful completion of this program will assist you in achieving your professional goals.

M.S. Program Requirements for M.D. Students

M.D./M.S. in HCE students must take the following twenty-seven (27) hours of MHE courses, plus the IDC 135 Ethical and Legal Topics in Clinical Medicine course that is taken as a standard part of the medical school curriculum:

M.D./M.S. applicants will also be asked to grant the Creighton University School of Medicine permission to release the entire contents of their AMCAS (American Medical College Application Service) application to the Creighton University Graduate School and the Center for Health Policy and Ethics for the purpose of application to the Master of Science in Health Care Ethics program.

M.D./M.B.A. Dual Degree Program

M.D./M.B.A.

Students have the opportunity to obtain a Doctor of Medicine (M.D.) and a Master of Business Administration (M.B.A.) through a coordinated dual degree program offered by the School of Medicine and the Heider College of Business. This dual degree program pairs the traditional medical curriculum with a M.B.A. degree. The M.B.A. degree is largely completed during a sabbatical year from medical school. Students in the program complete the M.B.A. curriculum as full-time students between the M2 and M3 years of medical school. This degree program provides students with additional career opportunities as administrators and executives in health-care related fields. It will
also help M.D.s in large and small practices perform business-related functions more effectively and with a deeper level of understanding.

**Eligibility for Admission**

Students entering the M.B.A. curriculum must provide evidence that they have completed IDC 135 Ethical and Legal Topics in Clinical Medicine; 3 credit hours and IDC 138 Evidence Based Medicine; 1 credit hour. The traditional M.B.A. application must be completed, including an application form, brief essay, two letters of recommendation, and transcripts (copies from School of Medicine files are adequate). Prior admission to medical school and the MCAT score implied by that admission is accepted in lieu of a GMAT score submission for this program.

**M.B.A. Requirements**

33 total credit hours; 4 transferred from IDC 135 Ethical and Legal Topics in Clinical Medicine and IDC 138 Evidence Based Medicine; 29 additional business credit hours

All M.D./M.B.A. students will complete two core courses (6 credit hours) that address business processes and skills. MBA 771 Leadership and Organizational Behavior should be taken early in the student’s program of study; MBA 775 Business Policy And Managerial Action is a capstone business course and thus should be taken near the end.

Program and Objectives

Certificate Program

Pre-Medical Postbaccalaureate Pre-Professional Studies

Creighton University’s Postbaccalaureate Program is designed to aid disadvantaged students in their preparation and admission to medical school. The Program is comprised of three parts. The first is an 8-week Summer Diagnostic Session in which students are involved in academic pretesting and curricular review sessions. Next, in the Academic Year Program, students participate in intensive coursework in the sciences, mathematics, and English. Finally in the Prematriculation Summer Session, students attend medical school preview courses. Throughout the program, students are provided academic and psychosocial support, clinical experiences, and mentoring in order to assure successful completion of the program and admittance to the Creighton University School of Medicine or another medical school or health sciences program.

Prerequisites for Admission

Prior to admission to the post-baccalaureate program, each applicant must have fulfilled all pre-medical science requirements and have completed an undergraduate degree or higher from a regionally accredited United States college or university. Applicants must have earned a baccalaureate degree and must not have been previously accepted to a medical school. However, applicants must have been previously denied admission to medical school. An eligible applicant must be a U. S. citizen, non-citizen national, or foreign national who possesses a visa permitting permanent residence in the United States.

Goal

The goal of the Postbaccalaureate program is to strengthen the academic and test-taking skills of disadvantaged students in order to enhance their competitiveness for application to medical school.
