1.0 Animal Occupational Health and Safety Program

In accordance with *The Guide*, an occupational health and safety program must be part of the animal care and use program of Creighton University. The IACUC is responsible for overseeing the occupational health and safety program. In this regard, the IACUC and the ARF have instituted, with the assistance of Research and Compliance, the Animal Occupational Health and Safety Program, a copy of which can be found at [http://www.creighton.edu/researchcompliance/iacuc/](http://www.creighton.edu/researchcompliance/iacuc/). This program is intended to identify potential hazards for individuals who use or have exposure to animals in research or teaching activities at Creighton University, to assess risks associated with those hazards, and to eliminate or otherwise manage any such potential risks.
