Carly Sloboth is conducting a research study through the Occupational Therapy Department.

Therapeutic benefits of gymnastics for children with autism spectrum disorder

The study involves research on the effects and therapeutic benefits of gymnastics for children with autism spectrum disorder who participate in an eight week recreational gymnastics class.

We are looking for people who meet the following criteria:

1. Clinical diagnosis of autism spectrum disorder
2. Between ages 5-11 years old with a clinical diagnosis of autism spectrum disorder
3. Can follow one-step directions
4. Have never been enrolled in a gymnastics class (either recreational or competitive in nature)

If you are interested in knowing more about this research study, please call (or e-mail):

Carly at 303-549-0512 (or roundoffresearchers@gmail.com)

Stipend Available:

☐ Yes  ☒ No
