Marc Rendell, MD is conducting a research study at the Creighton Diabetes Center.

This study is comparing Mylan’s insulin glargine to Lantus.

We are looking for people who meet the following criteria:

1. People who have type 2 diabetes and are between 18 and 65 years old, both ages inclusive.
2. People who were diagnosed with type 2 diabetes at least 1 year prior to screening.
3. People who have been on a stable once daily dose of anti-diabetic medications for at least 3 months.
4. People who have never used insulin or have been on a stable dose of Lantus for at least 3 months prior to screening.

If you are interested in knowing more about this research study, please call (or e-mail):
