News from the President

The efforts by the Goal Stewards and Goal Work Groups will continue through the summer months to continue work on the strategic plan for the University.

Preliminary results for the Stewardship of Resources goal indicates a 4.5% reduction in non-faculty workforce (approximately 60 positions). This reduction includes eliminating some open positions, but majority will come through reduction in force. Final decisions are expected by June 2nd. An announcement will be sent campus wide after discussions with affected staff are completed, but no details will be shared. Leadership is committed to easing the transition for those who are affected.

More information can be found by reading Fr. Hendrickson's [message](#) to the campus.
