Educational Benchmarking, Inc. (EBI) was formed in 1995 to allow Business Schools to benchmark and compare performance. They maintain a partnership with the accrediting agency AACSB to provide “Stakeholder Assessment Services,” comprising graduating students, alumni, faculty, and administration. Over 350 AACSB accredited schools use their services each year, and over 300,000 of their students have been surveyed over the past six years.

Comparisons shown here to Carnegie Masters class universities (formerly Comprehensive) Creighton is #2 in the Midwest region
