Biography

Dr. Marty Wilken is an associate professor in the Department of Preventive Medicine and Public Health, teaching in the Master in Public Health online program. She teaches Social and Behavioral Aspects of Health and Environmental Health to graduate students at Creighton University.

Dr. Wilken has worked with low-income, at-risk populations in Nebraska and South Dakota. Her current research involves working with Native Americans in self-management of diabetes for positive health outcomes and doing what she can to ensure narrowing the gap in disparities facing vulnerable populations.

Areas of Interest

The impact of the environmental on social determinants of health
