Welcome to 2009!

It is the end of 2008 Fall semester and the beginning of 2009 Spring semester. I hope you bring new insight with you to 2009 for your advancement in school and the HCOP Saturday Academy. Last semester Kaplan focused on skills review in English and Math. This semester we will have more of a focus on ACT/SAT preparation. The afternoon will be filled with various activities.

This semester, HCOP will be providing tutors from the Student National Medical Association (SNMA) and Minority Health Science Student Association (MHSSA) twice a month. Other Saturday afternoons will be filled with various activities in concert with learning more about the health sciences.

This semester also brings a new opportunity for you as we will be providing mentors; these mentors will come from other programs such as the Post-baccalaureate program made up of students that have their Bachelors degree and are preparing for either medical or dental school. Other mentors will come from the HCOP undergraduate students; these are individuals that have graduated from high school and are currently working on their Bachelors degree. They will be getting in contact with you shortly in addition they will be there to help further assist you in your goal to finish high school and get into college. The Saturday Academy will have some interactive events throughout the semester for you and your mentor.

The year 2009 will also provide you with the opportunity to have more input into the Saturday Academy Program. This can range from input for the monthly newsletter to the development of the Saturday Academy website to suggesting programs and tours that can be implemented. This new beginning will provide you the chance to improve yourself in a multitude of ways and HCOP is here to help you take advantage.

February 2009

Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	 7 ACT
