[1]The Administrative elective could be taken during any semester prior to NUR 889.
*Level of administrative experience may vary the CSA didactic and clinical courses and supervised clinical hours required for completion of the program

The above Program of Study is suggested for students who have an earned Master's in Nursing degree with a focus in Nursing/Clinical Systems Administration. During the first semester of enrollment in the Doctor of Nursing Practice program, the student and his or her academic advisor will develop an individualized plan that is based on the student's prior graduate course work and stated career goals and is consistent with *The Essentials of Doctoral Education for Advanced Nursing Practice* (AACN, 2006). The original plan and any variation from it after matriculation must be approved by the advisor and by the Program Chair.
