STUDY ABROAD PROGRAM OPPORTUNITIES

There are many factors to consider when selecting a program including: academic fit, cost, location, level of immersion, class dynamics, on-site support services, language of instruction, and volunteer/internship opportunities. Researching study abroad options and deciding on the program that is right for you can seem like a daunting task! But remember, the Study Abroad Coordinator can assist you through this process. Once you have attended the "Study Abroad 101: Getting Started Session," or completed the online tutorial, schedule an individual advising appointment with the Study Abroad Coordinator to discuss your unique interests and identify programs that are right for you!

FINANCIAL AID PORTABILITY FOR STUDY ABROAD

Creighton offers many different types of study abroad programs so that you may choose the option that is most affordable to you and your family. On some programs, both your institutional aid and federal financial aid will apply, while on other programs only your federal financial aid will apply. If you are interested in a program for which your institutional aid does not apply, it is important to keep in mind that some programs may have lower baseline prices, so losing your institutional aid may not necessarily translate to paying a higher price to study abroad. As part of the study abroad process, all students are required to meet with the CU Financial Aid Officer to discuss financial aid portability for studying abroad based on his/her individual aid package.
