WATERED DOWN
09.17-10.15

INSTALLATION BY
Matthew Dehaemers

Watered Down uses the power of visual imagery to address the social, economic, and environmental issues surrounding the global water crisis.

Watered Down works on many different levels to bring attention to our most valued and finite resource: water. On a daily basis, we take for granted the seemingly endless and plentiful element that is so basic and important to our daily survival. This exhibition comments on the challenges that face the Midwest and the United States as well as the dire situations that exist around the world, especially in developing countries where water is almost impossible to access.

CELEBRATING 45 YEARS OF EXCELLENCE.
In honor of our anniversary year, 1965-2010, the Department of Fine and Performing Arts is excited to host a wide array of events celebrating our past, present, and future at Creighton University. This event is funded by the generous support of the Richard and Mary McCormick Endowment Fund for the Fine and Performing Arts, the Creighton University College of Arts & Sciences, and the Department of Fine and Performing Arts. We thank our many sponsors and contributors. To learn more, please visit www.creighton.edu/fineandperformingarts, or call (402) 280-7001. For information on the Creighton University Department of Fine and Performing Arts, please visit www.creighton.edu/fineandperformingarts.
