

TITLE: iEdison

DESCRIPTION

iEdison (which stands for Interagency Edison) helps government grantees and contractors comply with the Bayh-Dole Act. Bayh-Dole regulations require that government-funded inventions be reported to the federal agency that made the award. iEdison provides a single interface for grantees and contractors to interact with any participating agency.

RESPONSIBILITY

The Principal Investigator is responsible for coordinating with Sponsored Programs Administration the submission to the iEdison system of inventions resulting from a Federal award. The Creighton University Intellectual Resource Management (IRM) office will also notify Sponsored Programs Administration of any investigators reporting inventions through the IRM office that were a result of Federal funding.
