

RENEWING YOUR IACUC CITI TRAINING

IACUC training must be renewed every three (3) years. The IACUC has approved the completion of the online Collaborative Institutional Training Initiative **(CITI) Working with Animals in Biomedical Research – Refresher course** for recertification. The time required to complete this refresher course is significantly less than the time required for the initial CITI “*Working with the IACUC*” course; you will be able to complete it in approximately one hour.

Please follow the link to the CITI website, www.citiprogram.org, and log onto the CITI website using your CITI Username and Password. Once you are logged on, you will be on a page titled “Main Menu.” Scroll down to:

Add a course or update your learner groups for Creighton University

Select “Add a course.” A page titled “Select Curriculum” will open. Scroll down to Question #3 and select the course titled:

Working With Animals In Biomedical Research - Refresher

Once you have selected the refresher course, scroll down to the bottom of the page and select “Continue”. You will be taken back to the “Main Menu” page. Under the section titled “My Courses,” will be the “**Working with Animals in Biomedical Research – Refresher**”. To begin the course, please click on the **Enter** to the right of the course title.
