***Volunteers Needed
for type 2 diabetes
Research***

Marc Rendell, MD is conducting a research study at the Creighton Diabetes Center

This study is assessing the effectiveness of canagliflozin in preventing the worsening of diabetic kidney and heart disease in patients with type 2 diabetes and kidney disease.

We are looking for people who meet the following criteria:

1. People who have type 2 diabetes and are between 30 years old or older.
2. People with stage 2 or 3 chronic kidney disease and macroalbuminuria.

If you are interested in knowing more about this research study, please call (or e-mail):
