Celebrating Mission at Creighton University

Staff Advisory Council

CREIGHTON UNIVERSITY

The Creighton University Staff Advisory Council serves as an advocate for University staff. It is committed to fairness, justice and respect in a quality work environment in accordance with the Mission of Creighton University.

Our Role

The Staff Advisory Council strives to foster and enhance communication between staff and the University community, to represent and advocate for their concerns within the University community, to serve as a resource for inquires and requests, to advise and make recommendations about existing and proposed University policies and procedures, and to represent the Mission of the University. We do this by:

- Serving as a channel for better communication between the staff and the administration.
- Advising the President in matters affecting the general welfare and working conditions of all members of the staff.
- Promoting mission-focused events and activities that encourages involvement of the Creighton staff within the University or with the Omaha community.

Committees

We have subcommittees to help achieve our mission. Each member of SAC serves two of these subcommittees. A few highlights are:

- **Nominating** - responsible for elections of new SAC staff members as terms are completed, for handling Rookie of the Year nominations and presenting the award, and for soliciting nominations for the Presidential Committees.
