BlueCross BlueShield of Nebraska
1919 Aksarben Drive
P.O. Box 3248
Omaha, NE 68180

Dear Hiring Manager:

As a junior at Creighton University, pursuing a Bachelor of Science with a major in Health Administration and Policy and a minor in Applied Information Technology, I strive to pair my educational interests with my passion for service to others. I am excited to apply for the IS Intern position with BlueCross BlueShield of Nebraska after learning more about it from Mr. John Doe at Creighton's Spring Career Fair. I am impressed with BlueCross BlueShield Nebraska's role as a leader in providing healthcare coverage to over 700,000 people; this resonated with me as I, one day, aspire to join an organization that provides peace of mind to individuals in the form of patient-focused healthcare. My solid familiarity with analytical data platforms, and passion for compassionate holistic healthcare, make me a great fit for this position.

Over the past two semesters I had the opportunity to develop skills in database management, business intelligence analytics platform structuring, and web-design. Through courses such as Database Design, Systems Analysis and Design, and BIA-Seminar in Decision Making, I have acquired hands-on experience coding in SQL, analyzing data in Excel, and visualizing big statistical data in Tableau. From closely collaborating with clients, to analyzing existing gaps in technology, and providing a data-driven decision making power, I assisted in producing solid outcomes such as an interactive web interface and new applications. By shadowing the CFO of Nebraska Orthopedic Hospital, I have gained a keen insight into organizational structure, healthcare finance, and the daily operation of the clinic. Witnessing the Board Meeting and Finance Committee discussions first-hand, I learned about the unique benefits and challenges of working for a healthcare organization in a leadership role. This experience inspired me and reaffirmed my passion for healthcare.

My interest for compassionate and holistic healthcare is grounded in serving those who need healthcare the most. For the past year, I have volunteered with local organizations as well as participated in a service trip to Lincoln, Nebraska. Active volunteering has helped me to live out my passion for meeting the needs of vulnerable communities; now I am aspiring to bring this passion, along with the aforementioned skills, to serve your clients and add value to your organizational mission of leading the way in supporting patient-focused care.

As a member of the BlueCross BlueShield of Nebraska team, I would be proud to support your organization's mission of leading the way in supporting patient focused care with drive and passion. Thank you for providing valuable opportunities like this to Creighton University students. I look forward to hearing from you soon, and best of luck with your search.

Sincerely,

Billy Bluejay
