Announcing the 2022 Gordon Research Conference on:

Auditory Systems

Preventing Loss and Recovering Function of the Auditory System

J. Issa

GRC, 2018

BIE, 2019

Date and Location:

July 10-15, 2022; Bryant University, Smithfield, RI, USA

Organizers:

Chair: Ruth Y. Litovsky

Vice Chair: Allison Coffin

Meeting Description:

We will traverse the auditory system from its fundamental peripheral mechanisms to central circuits, multi-sensory integration, and behavioral output. These sessions will cover coding of auditory information, disruption of function through disease and trauma, innovative approaches to prevent hearing loss, recovering function after loss, and other related topics.

Featured Speakers:

Jerome Bourien, Maria Chait, Monita Chatterjee, Gabriel Corfas, Karina Cramer, Ana Belén Elgoyhen, Katharine Fernandez, Ione Fine, Paul Forlano, Nace Golding, Andrew Groves, Keiko Hirose, Michael Hoa, Jeffrey Holt, Antje Ihlefeld, Darcy Kelley, Stefanie Kuchinsky, Ross Maddox, Dáibhid Ó Maoiléidigh, Matthew McGinley, Sean Megason, Carrie Niziolek, Jonathan Peelle, Jason Sanchez, Konstantina Stankovic, Karen Steel, Jennifer Stone, Ella Striem-Amit, Aaron Tward, Matthew Winn, Yoko Yazaki-Sugiyama (Discussion Leaders) Blake Butler, Melissa Caras, Brandon Cox, Ingrid Johnsrude, Cynthia Moss, Mario Svirsky, Yehoash Raphael, Michael Roberts, Catherine Weisz

Associated Gordon Research Seminar (GRS):

July 9-10, 2022

Chair: Travis Babola

Keynote: Kishore Kuchibhotla, Johns Hopkins University
