

Gerontology Occupational Therapy Fellowship Program

Fellowship experiences are an excellent way for new practitioners to advance clinical practice skills, research and teaching experiences to accelerate their careers.

The Creighton University Gerontology Occupational Therapy Fellowship Program is committed to creating reflective occupational therapy practitioners who serve older adults and their families with a focus on respect for diversity, local and global service, and holistic care.

GERONTOLOGY OT FELLOWSHIP

Program highlights:

- Focus on geriatric practice through Hillcrest Rehab Services, a local rehab agency focusing on the needs of the older adult
- Clinical fellowship settings: SNF, subacute rehab, assisted living, independent living, outpatient
- Academic fellowship setting: university campus setting for lecture and laboratory experiences, community laboratory experience and online teaching
- Interprofessional learning opportunities: case studies, curricular topics, interprofessional practice opportunities
- Engage in a scholarly research project during the fellowship
- Participate in teaching specialty content in lecture and lab activities with entry-level doctorate students
- Mentoring by highly motivated and experienced geriatric practitioners
- Prepare for your Gerontology Board Certification through a focused fellowship program
